RE: Docket Numbers

E01345A-07-0663

T-01846B-07-00663

We are still in favor of the underground utilities for several reasons; with the rapid change in technology, we believe that it would be better overtime for the home owners to upgrade before the system is obsolete. Just last summer Hillcrest Bay had a power pole fall into the street, resulting in a prolonged power outage and making it impossible to flow traffic through the development. We're very grateful that the incident did not cause any physical damage to any of our neighbors or their property. It would improve the property that we've invested our retirement savings into and the unobstructed views would be a bonus.

Our key reasons to move forward with this project focus around efficiencies, safety and overall values to the community.

We are both still in favor and our votes remains "Yes".

Sincerely,

Jerome P. Bowe
Karen M. Bowe
