REQUEST NO: 002

Please provide a statement setting forth the reasons for which a rate increase is required. Refer to R14-2-1 1 10(B)(1) of the Arizona Administrative Code ("AAC").

RESPONSE:

The proposed increases will present a revenue increase to the company from interstate services. The new rates requested by Qwest are just and reasonable in a competitive market such as the residential direct dialed long distance market. According to the Commission's own website, there are 273 certificated long distance carriers in the state of Arizona.

Please indicate if there is a cost based justification for the rate increase (i.e., is the rate increase necessary to account for a change in your cost)? If yes, please describe the change in your costs. Provide calculations and data to support your cost justification.

RESPONSE:

The proposed rate increase is not the result of a change in the cost of interstate service.

STF 01-014

INTERVENOR: Arizona Corporation Commission Staff

REQUEST NO: 014

Does QLDC believe customers will change to other long distance providers as a result of the proposed increase? If yes, please provide an estimate for the cost that individual customers might incur for moving to other long distance providers.

RESPONSE:

As mentioned in Qwest's response to request number 1.2, long distance is a competitive service and customers are able to pick and choose a carrier of their choice at anytime. Qwest does not know the prices of other providers and therefore does not know the cost that a customer might incur for moving to another long distance provider other than the charge by their local provider for a PIC change charge which is routinely reimbursed by the new carrier as an increase for the customer to change providers.

REQUEST NO: 015

Please provide the estimated % increase in QLDC intrastate revenues associated with this filing and explain if the % should be treated as Confidential.

RESPONSE:

This charge is an interstate charge that the Commission ordered to be filed in Qwest's intrastate tariffs as a result of Decision No. 67745. The entire revenue increase associated with this change will be booked as interstate revenue. Therefore there is no estimated % increase in QLDC intrastate revenues.
