 Subject: PSWID Strawberry Water Problems

Kristin,
 I attended a PSWID water meeting last week and found the information realed by the Board very disturbing. They were discussing the K 2 well. Jim Ritchie Board member, related that the ACC approved the 300 K for drilling the K 2 well? What he quoted was that the "ACC staff recommendation was to allow the use of the tax money to drill the test well". He was corrected and was informed that the ACC Commissioners have "not" approved the use of the tax money. If this is true than the PSWID Board members have forged ahead at their own risk. The Community was rightly upset at the statement made by Jim Ritchie. An owner of property adjacent to the well site told the board that the water company has not made any arrangements with him to cross his property and the Water Company would start a process to seize the property needed to complete the K 2 well? When questioned about this, the meeting was ended by the Board. I do not believe the PSWID Board members have the best interests of the Community in mind. They were reminded again that we have several wells that could be connected to the existing infrastructure. Why are they insistent on the K 2 well? Until the ACC Commissioners approve the use of the 300 K I believe they are on their own.

Thanks;
 Jim Worhle
