City of Prescott
Water Department
433 N. Virginia
Prescott, AZ 86301

To Whom It May Concern:

Wilhoit Water Company has completed the installation of the arsenic remediation system for our Yavapai Mobile Home Estates service area. For the past year, Wilhoit has had an interconnection with the City of Prescott and have received water from the fire hydrant located along Highway 89 at East Havasu Avenue.

This morning, Wilhoit disconnected from the fire hydrant and is now providing water to our customers from the two wells the company owns within the service area.

Please make arrangements to pick up any equipment the City provided for the interconnection including the backflow valve and water meter.

Wilhoit is very grateful to the City of Prescott for their willingness to have the water company tap into the City's water line. It allowed for the company to provide potable water to our customers while the arsenic remediation system was installed and tested.

Again, thank you for your assistance and please let me know if I can be of service in arranging for the City to pick up your equipment.

Cordially,

Jim West
