AZ CORP COMMISSION DOCKET CONTROL

Commissioners Mayes, Mundell, Hatch-Miller, Pierce and Chairman Gleason:

There are many issues that cause us great concern with the ICR Water Users Association Board of Directors.

Some of those basic concerns are:

- 1. Mr. Dayne Taylor has received Intervener status in the Rate Case, while the Board of Directors has repeatedly met in Executive sessions without identifying the purpose of its meetings.
2. Reading through the Amended Testimony of Myhilhousen and Liu, lets us, as shareholders in the ICR Water Users Association, have a clear understanding of what has taken place within our Association through our Board of Directors, both past and present - this has led to a very unfortunate situation.
3. Also, the Board has canceled its regularly scheduled monthly meeting that was to be held on March 25th - this was the only remaining meeting before the April 16th ACC Hearing.
4. I have sent other communications to you regarding many other issues and would like to have had the opportunity to discuss them with the Board.

We would also like to thank you for taking the time to read our communications that permit us to share our thoughts and concerns - for allowing us to be heard - with you as related to the ICRWUA Rate Case that is currently in progress.

We do want to express our appreciation for the great work done by the ACC Staff and expressly that done by Charles R. Myhilhousen and Jian W. Liu. Their work has been clear and concise and that is deeply appreciated by those who are not attorneys.

Sincerely,

Vickie and Jerry Fogarty
