RE: Tucson Electric Power Company
Docket Nos. E-01933A-07-0402 & E-01933A-05-0650

Dear Parties:

In order to aid my future full consideration of this matter, I would like Tucson Electric Power Company, Utilities Division Staff and the Residential Utility Consumer Office to answer the following questions:

1. For the residential class:
 - A. What is the monthly median summer (May-October) usage in kWh?
 - B. How were the tier breakpoints (500 kWh and 3,500 kWh) chosen?
 - C. How were the rate differentials chosen for the second tier (501 kWh – 3,500 kWh) and the third tier (3,501 kWh and above)?

2. For the residential class Time-of-Use (“TOU”) rates:
 - A. How were the hours chosen for the off-peak, shoulder and peak hours?
 - B. How were the rate differentials chosen between each set of hours?
 - C. How were the rate differentials chosen within each set of hours?

Any other parties to this case may also respond to these questions, if they desire. I would like responses to be docketed no later than April 16, 2008.

Sincerely,

Mike Gleason

Mike Gleason
Chairman
