FROM: Rodney Moore, Public Utilities Analyst V

RE: Report on RUCO's audit of the Arizona-American Water Company filing for an Arsenic Cost Recovery Mechanism ("ACRM") Step 2 rate increase for its Sun City West system.

AUDIT OBJECTIVE: The purpose and objective of this audit was to verify the operations and maintenance ("O&M") expenditures of the completed arsenic plant in the Sun City West Water District, to verify the prior 12 months of deferred O&M costs and the ongoing O&M costs, verify compliance with Decision Nos. 68310 and 66400 authorizing the ACRM, and verify the accuracy of the requested ACRM surcharge.

AUDIT PROCEDURES: I performed the following audit procedures:

- 1) Verified that all schedules that are required by Decision No. 66400 are included in the application.
- 2) Reviewed Earnings Test for compliance, accuracy, and determined if the Company had passed the Earnings Test.
- 3) Reviewed all arsenic O&M invoices, looking for such things as misallocations, unreasonable costs, non-arsenic O&M costs, double billings etc.
- 4) Verified accuracy of invoice totals and grand total.
- 5) Reviewed Revenue Requirement calculations for accuracy and compliance.
- 6) Reviewed rate design for accuracy of calculations, and checked the reasonableness of the billing determinants by comparing to the instant rate case.

AUDIT FINDINGS:

The Sun City West ACRM filing is accurate and in compliance with Decision Nos. 68310 and 66400 with the following two exceptions:

- 1) Contrary to Decision No. 68310, the Company is requesting recovery of additional arsenic plant. Under Decision No. 68310 the Company is authorized to recover only O&M costs and not capital costs. Decision No. 68310 authorizes the implementation of an ACRM to the extent described within the Order.

On page 8 of Decision No. 68310, Mr. Broderick describes in-depth what costs would be recoverable in each step of the ACRM. Item a) on page 8 states: "In the first step filing.....the Company could seek recovery of capital costs for arsenic treatment facilities that are up and running. Item c) on page 8 states: "In the second step filing.....the Company could seek recognition of the prior 12 months of deferred O&M costs, as well as ongoing O&M costs.

- 2) Through discovery, a calculation error was uncovered in the cost of chemicals. Therefore, the actual O&M cost for chemicals was reduced \$19,463 from \$54,756 to \$35,293.

AUDIT RECOMMENDATIONS:

The Company's ACRM request should be adjusted to remove the request for recovery of additional arsenic plant in service not recovered by the existing Surcharge and only reflect the recovery of the eligible arsenic O&M costs. These recommended adjustments and the resultant RUCO recommended ACRM step 2 rate increases are displayed on the attached Schedule RUCO ACRM-2.
