AZ CORP COMMISSION
DOCKET CONTROL

4700

Email or letter

The fire protection capability of a water system is as important to the water company's customers and the public as any other aspect of the service provided by the water company. Without adequate fire flows and sufficient hydrants fire departments cannot respond properly to fires.

I/we respectfully ask the Arizona Corporation Commission to reconsider decision #70351 and order Arizona American Water Company to address the fire flow and hydrant deficiencies in Youngtown. I/we support a Fire Flow Cost Recovery Mechanism (FCRM), as it would be applied to Youngtown.

Sincerely,

Margaret F. Seals *Solan C. Seals*
