DOCKET CONTROL

IN THE MATTER OF THE APPLICATION OF
COMMUNITY WATER COMPANY OF GREEN
VALLEY FOR AN EXTENSION OF ITS
CERTIFICATE OF CONVENIENCE AND
NECESSITY.

DOCKET NO. W-02304A-08-0149

**RESPONSE TO SUPPLEMENTAL
STAFF REPORT**

Community Water Company of Green Valley (“Company”) hereby submits its response to the Staff Supplemental Report for the application of Company for an extension of its certificate of convenience and necessity (the “Report”).

Company wholeheartedly agrees with Staff’s ultimate conclusion to support Commission approval of Company’s application for the extension of its CC&N to serve potable water that meets State and Federal drinking water standards to the mine’s headquarters area.

The only technical matter dealing with the Report is found on Page 2, Paragraph 1, Line 4, where the word “or” should be deleted and the words “which are” inserted so that the full intent of Company’s testimony is present.

It should also be noted that the Agreement (Exhibit G), in Paragraph 5(a) states that while Company’s water service rules and regulations and the Commission’s rules could lead to the conclusion that plant addition should be treated as ADIC. In Paragraph 5(a) it is specifically stated “except as otherwise provided in this Agreement.” The Agreement goes on to spell out who owns what.
