AZ CORP COMMISSION
DOCKET CONTROL

Reference; Docket Number E-01345A-08-0172

I'm writing this letter to officially document my opposition to the APS request for another of it's continues rate increases. In these times of economic down trends when people are walking away from their homes and are not able to pay their utility bills. We are looking at yet another APS rate increase within the same physical year.

I've always been under the impression that the corporation commission and it's members are representatives of voting public but once again I'm mistaken as in all politics, you back big business and pad your own wallets at the cost of those who have to scrape the bottom of the barrel each month to meet their all their bills. Where does it stop? With you? Some how I doubt it!

No one is increasing my wages two or three times a year for my services. APS is just like the big oil companies they have us little people over a barrel, especially in Arizona where electricity runs your entire household with air conditioning being a necessity in order to live.

Is APS and this commission aware of what is going on in our country as it relates to economics ? We are in grips of a recession with no end in sight. What the hell is wrong with you people? Have you no common sense?

Sincerely,

Arizona Corporation Commission
