**Subject:** APS Request for an Interim Rate Increase

4760

Dear Commissioner: Please oppose any interim rate increase for APS at your hearing on September 15, 2008. APS constant requests for rate increases needs to be investigated to determine if any concrete evidence exists that warrants their requests. I recently read that one of the APS executives just received a \$250,000/year salary increase. I believe we have a utility company that is out of control at the expense of ratepayers who have little impact. Thank you, Vince Lostetter
