“Commission Analysis

We appreciate the concerns articulated by Staff, but we reach a different result. Cox Arizona Telecom is but a small part of Cox Communications, Inc. While we consider fair value information, we do not set Cox Arizona’s rates using traditional cost-of-service information. Cox Arizona is a competitive local exchange carrier. Its rates are set on a statewide basis and are dictated by market forces. Even so, Cox Arizona would require Commission approval to increase its maximum rates to be charged in Arizona. Under these circumstances, Rule 805 information is of little value, particularly in light of the purpose for which Rule 805 was adopted, and is unnecessary additional economic regulation. We see no reason to add to the regulatory burden faced by competitive telecommunications providers. In light of this, we find that Cox Arizona’s waiver from Rule 805 should be extended for another 12 months.”
