RE: Data Response for Access Point, Inc.

Dear Sir/Madame:

Enclosed for filing are the original and thirteen (13) copies of the above response to the data request of June 5, 2008, by Pamela J. Genung, submitted on behalf of Access Point, Inc.

Please acknowledge receipt of this filing by date stamping the extra copy of this cover letter and returning it to me in the self-addressed, stamped envelope provided for that purpose.

Any questions you may have regarding this filing may be directed to me attention at 407-740-3001 or via email to tforte@tminc.com. Thank you for your assistance.

Sincerely,

Thomas M. Forte
Consultant to Access Point, Inc.

DOCKETED BY

ARIZONA CORPORATION COMMISSION
STAFF'S SECOND SET OF DATA REQUESTS TO
ACCESS POINT, INC.
DOCKET NO. T-03446A-08-0055

Please make sure each numbered item and each part of the item is answered completely. In order for Staff to continue with its review of this application, the following information must be submitted:

STF 2.1 Based on the information provided in Access Point's Application and Responses to Staff's First Set of Data, Staff has concluded that the answer to Item B-4 (3) regarding the Company's net book value of all Arizona jurisdictional assets expected to be used in the provision of telecommunications service to Arizona customers at the end of the first twelve months of operation is zero. Please verify whether Staff's conclusion is correct. If that is incorrect, please provide the correct dollar amount.

Response:

Staff's assumption regarding Access Point's Arizona jurisdictional assets is correct.

STF 2.2 Please verify whether Access Point is requesting authority to provide Private Line telecommunications services in Arizona in addition to its request for Resold Local Exchange and Facilities-based Local Exchange telecommunications services.

Response:

No. Access Point, Inc. is not requesting authority to provide Private Line services within Arizona.

STF 2.3 If Access Point is also seeking authority to provide Private Line telecommunications services, please identify by referencing the tariff page number(s) where those rates can be found and/or submit updated proposed tariff pages containing those rates. If Access Point does not wish to provide Private Line services, please indicate as such so that Original Pages 1 and 2 in Section 4 of Access Point's proposed Arizona Tariff No. 3 can be removed.

Response:

Please see Attachment I to this response for those tariff pages that needed to be revised for the removal of references to Private Line services. Corrected tariff pages included in this response are Preface - Original Page 3 and Section 4 - Original Pages 1, 2 and 3.

STF 2.4 As previously requested in Item STF 1.11 of Staff's First Set of Data Requests to Access Point, please provide the requested rate comparison information regardless of whether the rates in other states/jurisdictions that Access Point provides services are higher or lower than those proposed in Arizona.

Response:

Please see Attachment II to this response for a summary of rate plans from states where Access Point is currently providing services.

SECTION 4 - SERVICE OFFERINGS**4.1 Basic Local Exchange Service****4.1.1 General**

Basic Local Exchange Service provides a Customer with a telephonic connection to, and a unique telephone number on, the Company switching network that enables the Customer to:

- (A) receive calls from other stations on the public switched telephone network;
- (B) access the Company Local Calling Services and other Services as set forth in this tariff;
- (C) access interexchange calling services of the Company and of other carriers;
- (D) access (at no additional charge) to Company operators and business office for service related assistance;
- (E) access toll-free telecommunications services such as 800 NPA; and access toll-free emergency services by dialing 0 or 9-1-1 (where available);
- (F) access relay services for the hearing and/or speech impaired.

Basic Local Exchange Services cannot be used to originate calls to caller-paid information services (e.g., 900, 976) provided by other companies. Calls to those numbers and other numbers used for caller-paid information services will be blocked by the Company switch. Each Basic Local Exchange Service corresponds to one or more telephonic communications channels that can be used to place or receive one call at a time.

Individual line Residence and Business Basic Local Exchange Service is comprised of exchange access lines defined as follows:

Exchange Access Line - The service central office line equipment and all the Company plant facilities up to the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for message toll service and for local calling appropriate to the tariffed use offering selected by the Customer.

SECTION 4 - SERVICE OFFERINGS, (CONT'D.)
4.1 Basic Local Exchange Service, (Cont'd.)**4.1.2 Flat Rate Local Exchange Service**

Flat Rate Local Exchange Service provides a Customer with a single, analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Flat Rate Local Exchange Service lines are provided for the connection of Customer-provided wiring, telephone, facsimile machines or other station equipment. Local exchange service lines and trunks are provided on a single party (individual) basis only. No multi-party lines are provided.

Recurring charges for Flat Rate Local Exchange Service are billed monthly in advance. Non-recurring charges for installation or rearrangement of service are billed on the next month's bill immediately following work performed by the Company.

Flat Rate Local Exchange Service includes unlimited local exchange calling per month.

	Maximum Business	Maximum Residential

SECTION 4 - SERVICE OFFERINGS, (CONT'D.)
4.2 Business PBX Trunk Service

PBX Trunk service provides a Customer with a single, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Trunks are provided for connection of Customer-provided private branch exchanges (PBX) or other station equipment to the public switched telecommunications network. PBX Trunks are available to Business Customers as Inward, Outward or Two-Way combination trunks where services and facilities permit.

PBX Trunks are available to Business Customers as Inward, Outward or Two-Way combination trunks where services and facilities permit.
