RE: Docket #: T-02532A-07-0586

To whom it may concern;

I would like to enter my approval and support for the above application, being made by the Midvale Telephone Exchange that would allow them to extend telephone service into my community of Haystack Ranches, located approximately 5 miles east of Chino Valley, AZ. and due north of East Perkinsville Road.

When our community was being developed, in 2001, QWEST Communications, was invited to extend service to the development, but declined to do so, base upon seeing little return in profit, for their investment made. At this time, QWEST still doesn't have any plans, for the future, to bring service to us. Haystack Ranches is a community of 55 home sites of 7 acres or larger, of which 30 + homes have been built or in the final process of being built.

By approving the Midvale Telephone Exchange's application, you will be allowing them to bring a much needed and almost expected service, in this day and age, that has been denied to us by QWEST. Currently my neighbors and I rely solely on cell phones, for the most part, for any outside telephone communication.

Thank you, for your consideration, in hearing my request to approve this application.
