Re: **McLeodUSA Telecommunications Services, Inc's,
Revision to ACC Tariff No. 3**

T-03267A-08-0474

Docket Control:

McLeodUSA Telecommunications Services, Inc. ("McLeodUSA") hereby transmits for filing an original and thirteen (13) copies of the revision to our McLeodUSA IntraLATA Toll and Local Exchange Tariff No. 3 ("ACC Tariff No. 3"). In this filing, McLeodUSA is increasing some feature rates within the approved maximums (Sheet Nos. 76, 76.1, 80.1, 80.2, 113, 114, 117); modifying language for long distance and 800 services (Sheet Nos. 59 and 59.2) and modifying the description of charges included in the T1/PRI ISDN packages (Sheet Nos. 87, 89.4, 90, 90.5, 137 and 139). The Check Sheets (Sheet Nos. 2, 3 and 3.1) were modified accordingly. Some of these revised sheets are still pending official closure from the ACC (Sheet Nos. 59, 90 and 90.5); however, as a matter of operational law, the previous revised sheets are in effect. McLeodUSA requests an administrative approval for this filing.

Also enclosed are copies of the customer notices and an affidavit attesting to the distribution of those notices.

This filing has an issue date of September 10, 2008 and a proposed effective date of October 16, 2008. Please file stamp the extra copy and return it to me in the enclosed, self-addressed, stamped envelope. If you have any questions regarding this filing please contact me at (281) 465-1431 or by email at julie.dishman@mcleodusa.com. Thank you for your time and consideration in this matter.

Sincerely,

Julie Dishman

Dear Valued Customer,

Thank you for your continued business with McLeodUSA. We value you as a customer and thank you for relying on us for your communications needs.

While we strive to pass along fair and affordable pricing to our customers, the cost of providing features and services has risen. At this time, we find it necessary to make adjustments to our current rates. Effective October 16, 2008, the following change will be implemented:

- **Feature Rate Changes:** Rates for some a la carte features will increase. The new rates for features are listed in the table below.

Please note: These rate changes will not affect features that are included in local or long distance packages.

Dear Valued Customer,

Thank you for your continued business. As you may be aware, McLeodUSA is now a PAETEC company. We value you as a customer and thank you for relying on McLeodUSA Telecommunications Services, Inc. D/B/A PAETEC Business Services for your communications needs.

While we strive to pass along fair and affordable pricing to our customers, the cost of providing features and services has risen. At this time, we find it necessary to make adjustments to our current rates. Effective October 16, 2008, the following changes will be implemented:

- **Feature Rate Changes:** Rates for some a la carte features will increase. The new rates for features are listed on the back of this page.

Please note: These rate changes will not affect features that are included in local or long distance packages.

- **Long Distance Rounding (LD Rounding):** In an effort to standardize our services, prices for all usage-based calls (i.e. long distance, toll-free, and calling card) will be rounded up to two digits. An example of the rounding is provided below:

Call Example Based on a Rate of \$0.0378 / minute		
Call Duration (mins)	Previous Rounding Call Rate	New Rounding Call Rate
1.0	\$0.03780	\$0.04
2.0	\$0.07560	\$0.08
3.0	\$0.11340	\$0.12

3.0 Description of Services Offered (cont'd)

3.5 Long Distance Interexchange and 800 Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Arizona. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. Usage charges are based on the duration and time of day of each call when applicable.

(D)(T)
(D)

Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

McLeodUSA 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable.

Long Distance and Toll Free Packages consist of a bucket anytime minutes used by the Customer for outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute."

3.5.1 Charges Based on Duration of Use

Each call is rated and billed in whole cents according to the following conventions:

For any long distance services offered by McLeodUSA if the computed charge for a call includes a fraction of a cent, the fraction is rounded up to the next whole cent.

Exceptions. Special rounding arrangements may be made through contractual arrangements.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call.

Monthly recurring prices include up to 250 Direct Inward Dial (DID) numbers, with additional DID numbers in sequential blocks fo 20 or non-sequential singles, at the Non-Recurring and Monthly Recurring rates below. Also included in the monthly recurring price are applicable End User Common Line (EUCL), Local Measured Service (LMS), Primary Interexchange Carrier Charges (PICC), and Mandatory Extended Area Service (EAS) charges. 4.3.7.C.1 Product Description

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for LD and Toll Free Plan w/ Local Access pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service.

For this product, no separate charges apply for and End User Common Line (EUCL) charge, Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.
