**Subject:** Extreme Rate Increase

Commissioner Gleason:

Thank you for your time. I am resident of Fort Mohave, Mohave County, Arizona. Physical address is 2021 Sandtrap Lane, Fort Mohave, Arizona 86426. I along with some of my neighbors yesterday and today received notice from Arizona American Water received notice of a rate increase to the degree that it seems criminal. They are proposing a wastewater increase from \$49.75 to approximately \$89.00, an increase of approximately 80%. The details surrounding this increase were not very detailed and my concern is that some of the residents here are footing the entire bill for pipeline issues, contamination issues and environmental fines levied on the company in the recent past.

If you or one of your staff could, would you please forward any application and vote process that has allowed this level of increase to go into effect in today's economic environment for consumers.

Again, thank you for you time,
