NOTICE OF FILING
CERTIFICATES OF ENVIRONMENTAL COMPATIBILITY

The Arizona Power Plant and Transmission Line Siting Committee hearing proceedings have concluded in these dockets. The Committee approved the separate Certificates of Environmental Compatibility ("CECs") in these cases. Attached for filing are the approved CEC's for Docket Nos. L-00000G-08-0407-00139 and L-00000G-08-0408-00140.

11 **CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY**

12 Pursuant to notice given as provided by law, the Arizona Power Plant and Transmission
13 Line Siting Committee (the "Committee") held public hearings on September 22 and 23, 2008 and
14 October 14, 2008, in conformance with the requirements of Arizona Revised Statutes ("A.R.S.")
15 §§ 40-360, *et seq.*, for the purpose of receiving evidence and deliberating on the Application of
16 Arizona Solar One, LLC. ("Applicant") for a Certificate of Environmental Compatibility
17 ("Certificate") in the above-captioned case (the "Project").

18 The following members and designees of members of the Committee were present at one
19 or more of the hearings for the evidentiary presentations and/or for the deliberations:

20 John Foreman	Chairman, Designee for Arizona Attorney General
21	Terry Goddard
22 Paul Rasmussen	Designee for Director, Arizona Department of
23	Environmental Quality
24 Gregg Houtz	Designee for Director, Arizona Department of Water
25	Resources
26 Jack Haenichen	Designee for Director, Energy Office, Arizona Department
	of Commerce, attended September 22 and 23, 2008

- 1 Jim Arwood Director, Energy Office, Arizona Department of
Commerce, attended October 14, 2008
- 2
- 3 David Eberhart Designee for Chairman, Arizona Corporation
Commission
- 4
- 5 Michael Biesemeyer Appointed Member, attended September 22 and 23, 2008
- 6
- 7 Jeff McGuire Appointed Member
- 8
- 9 Patricia Noland Appointed Member
- 10
- 11 Michael Palmer Appointed Member
- 12
- 13 Michael Whalen Appointed Member
- 14
- 15 Barry Wong Appointed Member

11 Applicant was represented by Thomas H. Campbell and Albert H. Acken of Lewis and
 12 Roca LLP. Arizona Corporation Commission (“ACC” or “Commission”) Staff, represented by
 13 Charles H. Hains and Robin R. Mitchell, the Sierra Club-Grand Canyon Chapter, represented by
 14 Timothy M. Hogan, and the Paloma Irrigation and Drainage District (“PIDD”), represented by Jay
 15 Moyes and Jeffrey Zimmerman, were granted intervention pursuant to A.R.S. § 40-360.05.

16 At the conclusion of the hearings, the Committee, having received the Application, the
 17 appearances of the parties, the evidence, testimony, and exhibits presented at the hearings, and
 18 being advised of the legal requirements of A.R.S. §§ 40-360 to 40-360.13, upon motion duly
 19 made and seconded, voted 10 to 0 to grant Applicant this Certificate of Environmental
 20 Compatibility (Line Siting Case No. 139) for the Project.

21 The Project as approved consists of a 280 Megawatt (“MW”) gross output (250 MW
 22 nominal output) concentrating solar power (“CSP”) electric generating plant located on an
 23 approximately 3000-acre site west of the Town of Gila Bend, in Maricopa County, Arizona. A
 24 general location map of the Project is set forth in **Exhibit A**.

25
26

1 Project site for which the extension is sought. Such landowners and residents shall be
2 notified of the time and place of the proceeding in which the Commission shall
3 consider such request for extension.

- 4 5. Applicant, or its assignee(s) and/or its customer, will work in good faith to develop and
5 implement an educational program to teach students about the science of solar electric
6 technology.
- 7 6. The Applicant, or its assignee(s), will provide to the Commission Staff copies of the
8 Project's executed interconnection agreement with APS, and the technical operating
9 studies that will be performed prior to actual physical interconnection of the Project to
10 the APS transmission system.
- 11 7. Applicant, or its assignee(s), or its affiliate company, or its customer will become a
12 member of the Western Electricity Coordinating Council ("WECC") (or its successor),
13 and will file with the Commission Docket Control a copy of its executed WECC
14 Membership Agreement.
- 15 8. Applicant, or its assignee(s) and/or its affiliate company and/or its customer, will
16 participate in good faith in Commission-sponsored workshops and assessments of the
17 solar renewable infrastructure and market.
- 18 9. Applicant, or its assignee(s), may utilize groundwater for electrical generation and
19 related uses associated with construction and commercial operation of the Project.
20 Prior to the commencement of commercial operation, Applicant, or its assignee(s) will
21 file with Commission Docket Control a letter confirming that Applicant, or its
22 assignee(s) has secured both an adequate supply of water to produce 280 MW using
23 CSP parabolic trough technology with thermal storage, and a legal right to use the
24 water needed for the purpose of construction and commercial operation of the Project.
- 25 10. To the extent applicable, Applicant or its assignee(s), will comply with the notice and
26 salvage requirements of the Arizona Native Plant Law (A.R.S. §§ 3-901, *et seq.*) and

1 will, to the extent feasible, minimize the destruction of native plants during Project
2 construction.

3 11. During the construction and maintenance of the Project, to the extent applicable, the
4 Applicant, or its assignee(s), will use existing roads for access, and to the extent
5 applicable, taking into the account that the Project Site lies within a cultivated
6 agricultural area, minimize impacts to wildlife and vegetation on the Project Site.

7 12. Pursuant to A.R.S. § 41-844, if any archaeological, paleontological or historical site or
8 object that is at least fifty years old is discovered on state, county or municipal land
9 during Project-related activities, the person in charge shall promptly report the
10 discovery to the Director of the Arizona State Museum, and in consultation with the
11 Director, shall immediately take all reasonable steps to secure and maintain the
12 preservation of the discovery. If human remains and/or funerary objects are
13 encountered on private land during the course of any ground-disturbing activities
14 relating to the development of the subject property, Applicant shall cease work on the
15 affected area of the Project and notify the Director of the Arizona State Museum
16 pursuant to A.R.S. § 41-865.

17 13. Within 120 days of the Commission decision granting this Certificate, Applicant, or its
18 assignee(s), will erect and maintain at the site a sign of not less than 4 feet by 8 feet
19 dimensions, advising:

20 (a) That the site has been approved for the construction of a 280 MW generating
21 facility;

22 (b) The expected date of completion of the Project;

23 (c) A phone number for public information regarding the Project;

24 (d) The name of the Project;

25 (e) The name of the Applicant, or its assignee(s); and

26 (f) The website of the Applicant, or its assignee(s).

24
25
26

14. In connection with the construction of the Project, Applicant, or its assignee(s), shall use commercially reasonable efforts, where feasible, to give due consideration to use of qualified Arizona contractors.

15. The Applicant, or its assignee(s), shall provide copies of this Certificate to the Maricopa County Planning and Development Department, the Arizona State Land Department, the State Historic Preservation Office, and the Arizona Game and Fish Department.

16. Within 120 days after the approval of this Certificate by the Commission, Applicant, or its assignee(s), will provide known homebuilders and developers within one mile of the Project (i) a copy of this Certificate, (ii) a map showing the location of the Project, (iii) a pictorial depiction of the type of power plant being constructed, and (iv) a written request that the developers and homebuilders include this information in the developers' and homebuilders' homeowners' disclosure statements.

17. The Applicant, or its assignee(s), shall file with Commission Docket Control, confirmation of the completion of system upgrades required under the interconnection agreement at least thirty days before commercial operation of the plant and associated transmission lines.

18. The Applicant will comply with all applicable Western Electricity Coordinating Council/North American Electric Reliability Corporation standards, without the implementation of an automated Remedial Action Scheme to mitigate N-1 contingencies other than the loss of the Gen-Tie line.

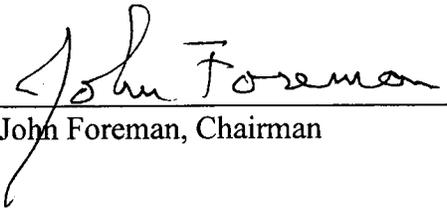

19. The Applicant, or its assignee(s), shall file with Commission Docket Control the final APS System Impact Study, to include the Short Circuit Study, within 10 days of receipt by the Applicant or its assignee(s).

- 1 6. The thermal energy storage system will use molten salt storage that will allow solar
2 power to be dispatched in accordance with peak electricity demand profiles, and during
3 cloudy or post-sunset periods.
- 4 7. The heat transfer fluid system moves the thermal energy collected in the solar field to
5 the power block and the thermal energy storage system.
- 6 8. Solana will be a water cooled plant that will use approximately 3,000 acre feet per year
7 within PIDD, which is substantially less than the approximately 27,500 acre feet per
8 year that has been historically delivered by PIDD and used on this site for agriculture.
- 9 9. Utility-scale parabolic trough technology has successfully performed since 1984 when
10 the first of nine trough plants were built in California's Mohave Desert.
- 11 10. The addition of Solana's clean energy production will offset the need for fossil-fueled
12 generation that would otherwise produce approximately 475,000 tons per year of
13 greenhouse gas emissions.
- 14 11. The Project is in the public interest because it aids the state in meeting the need for an
15 adequate, economical and reliable supply of electric power.
- 16 12. In balancing the need for the Project with its effect on the environment and ecology of
17 the state, the conditions placed on the Certificate by the Committee effectively
18 minimize its impact on the environment and ecology of the state.
- 19 13. The conditions placed on the Certificate by the Committee resolve matters concerning
20 the need for the Project and its impact on the environment and ecology of the state
21 raised during the course of proceedings, and as such, serve as the findings on the
22 matters raised.

14 **CERTIFICATE OF ENVIRONMENTAL COMPATIBILITY**

15 Pursuant to notice given as provided by law, the Arizona Power Plant and Transmission
16 Line Siting Committee (the "Committee") held public hearings on September 22 and 23, 2008,
17 and October 14, 2008, all in conformance with the requirements of Arizona Revised Statutes
18 ("A.R.S.") §§ 40-360, *et seq.*, for the purpose of receiving evidence and deliberating on the
19 Application of Arizona Solar One, LLC. ("Applicant") for a Certificate of Environmental
20 Compatibility ("Certificate") in the above-captioned case (the "Project").

21 The following members and designees of members of the Committee were present at one
22 or more of the hearings for the evidentiary presentations and/or for the deliberations:

23 John Foreman Chairman, Designee for Arizona Attorney General
24 Terry Goddard
25 Paul Rasmussen Designee for Director, Arizona Department of

Applicant was represented by Thomas H. Campbell and Albert H. Acken of Lewis and Roca LLP. Arizona Corporation Commission ("ACC" or "Commission") Staff, represented by Charles H. Hains and Robin R. Mitchell, the Sierra Club-Grand Canyon Chapter, represented by Timothy M. Hogan, and the Paloma Irrigation and Drainage District, represented by Jay Moyes and Jeffrey Zimmerman, were granted intervention pursuant to A.R.S. § 40-360.05.

At the conclusion of the hearings, the Committee, having received the Application, the appearances of the parties, the evidence, testimony, and exhibits presented at the hearings, and being advised of the legal requirements of A.R.S. §§ 40-360 to 40-360.13, upon motion duly made and seconded, voted 10 to 0 to grant Applicant this Certificate of Environmental Compatibility (Line Siting Case No. 140) for the Project.

1 The Project as approved consists of approximately 20 miles of 230 kV transmission line
2 and required substation and switchyard facilities and modifications. The single-circuit may be
3 constructed on either single-circuit or double-circuit towers.

4 The Project will originate at a new 230 kV substation within the Solana Generating Station
5 site (Line Siting Case No. 139, proceeding concurrently with this case), Maricopa County,
6 Arizona. From the new substation within the Solana site, the Project will head to the intersection
7 of Painted Rock Dam Road and Powerline Road. The Project will end at the existing APS Panda
8 Substation (Line Siting Case No. 99) located in Section 20, Township 5 South, Range 4 West,
9 Gila Bend, Arizona. The Project may interconnect with (loop in and out of) the APS Gila Bend
10 Substation in addition to terminating at the existing APS Panda 230 kV Substation. From the
11 intersection of Painted Rock Dam Road and Powerline Road, the Project's route will be as
12 follows:

- 13 • North for approximately two miles to the section line / Watermelon Road alignment,
14 within a 500-foot wide corridor. The corridor width includes 250 feet east and 250 feet
15 west of the centerline of the section line / Painted Rock Dam Road / 419th Avenue
16 alignment.
- 17 • At the section line located two miles north of Powerline Road, the route turns east along
18 the section line / Watermelon Road alignment for approximately sixteen miles to the
19 existing APS Panda 230 kV Substation, located in Section 20, Township 5 South, Range 4
20 West, Gila Bend, Arizona. Between 419th Avenue and 355th Avenue the corridor width is
21 2,000 feet; 1,000 feet north and 1,000 feet south of the centerline of section line /
22 Waterline Road alignment. From 355th Avenue to the midsection line between 331st
23 Avenue and 323rd Avenue, the corridor width is 1,000 feet, located south of the centerline
24 of the section line / Watermelon Road alignment. From the midsection line between 331st
25 Avenue and 323rd Avenue to the east side of the existing APS Panda 230 kV Substation,
26

1 the corridor width is 1,250 feet, located south of the centerline of the section line /
2 Watermelon Road alignment.

- 3 • At the point along the section line / Watermelon Road alignment located parallel to the
4 eastern boundary of the existing APS Panda 230 kV Substation, the route extends 1,000
5 feet north of Watermelon Road, within a 500-foot wide corridor east of the existing APS
6 Panda 230 kV Substation.

7 For the authorized, but not required, loop in and out of the Gila Bend Substation, the
8 Project's route also includes the following corridor:

- 9 • A 1,000-foot wide corridor, approximately two miles long, located between Watermelon
10 Road and the APS Gila Bend Substation, primarily along the alignment of the existing
11 APS 230 kV Gila Bend transmission line (Line Siting Case No. 26). The corridor width
12 includes 500 feet east and 500 feet west of the centerline of the existing alignment. Within
13 this corridor, the portion of the circuit extending south from Watermelon Road to the APS
14 Gila Bend Substation and the portion extending north from the APS Gila Bend Substation
15 to Watermelon Road may be placed on two sets of single-circuit towers or on one set of
16 double-circuit towers.

17 A general location map of the Project, described herein, is set forth in **Exhibit A**.

18 **CONDITIONS**

19 This Certificate is granted upon the following conditions:

- 20 1. The Applicant, or its assignee(s), shall obtain all required approvals and permits
21 necessary to construct the Project.
- 22 2. The Applicant, or its assignee(s), shall comply with all existing applicable ordinances,
23 master plans and regulations of the Town of Gila Bend, State of Arizona, the County
24 of Maricopa, the United States, and any other governmental entities having
25 jurisdiction.

26

- 1 3. This authorization to construct the Project will expire ten (10) years from the date the
2 Certificate is approved by the Commission unless the Project is completed and capable
3 of operation within the ten-year time frame. If the Project is not complete and capable
4 of operation within the ten-year time frame, the Applicant or its assignee(s), may
5 request that the Commission extend this time limitation.
- 6 4. In the event that the Project requires an extension of the term of this Certificate prior to
7 completion of construction, Applicant, or its assignee(s), shall use commercially
8 reasonable means to directly notify all landowners and residents within one mile of the
9 Project corridor for which the extension is sought. Such landowners and residents
10 shall be notified of the time and place of the proceeding in which the Commission shall
11 consider such request for extension.
- 12 5. The Applicant, or its assignee(s), shall document and make every reasonable effort to
13 identify and correct, on a case-specific basis, all complaints of interference with radio
14 or television signals from operation of the transmission lines and related facilities
15 addressed in this Certificate. The Applicant, or its assignee(s), shall maintain written
16 records for a period of five years of all complaints of radio or television interference
17 attributable to operation, together with the corrective action taken in response to each
18 complaint. All complaints shall be recorded to include notations on the corrective
19 action taken. Complaints not leading to a specific action or for which there was no
20 resolution shall be noted and explained.
- 21 6. To the extent applicable, Applicant, or its assignee(s), shall comply with the notice and
22 salvage requirements of the Arizona Native Plant Law (A.R.S. §§ 3-901, *et seq.*) and
23 will, to the extent feasible, minimize the destruction of native plants during Project
24 construction.
- 25 7. Pursuant to A.R.S. § 41-844, if any archaeological, paleontological or historical site or
26 object that is at least 50 years old is discovered on state, county or municipal land

1 during Project-related activities, the person in charge shall promptly report the
2 discovery to the Director of the Arizona State Museum, and in consultation with the
3 Director, shall immediately take all reasonable steps to secure and maintain the
4 preservation of the discovery. If human remains and/or funerary objects are
5 encountered on private land during the course of any ground-disturbing activities
6 relating to the development of the subject property, Applicant shall cease work on the
7 affected area of the Project and notify the Director of the Arizona State Museum
8 pursuant to A.R.S. § 41-865.

- 9 8. Applicant, or its assignee(s), shall design the transmission lines to incorporate
10 reasonable measures to minimize impacts to raptors.
- 11 9. Applicant, or its assignee(s), shall use non-specular conductor and dulled surfaces for
12 transmission line structures.
- 13 10. Before construction on this Project may commence, the Applicant, or its assignee(s),
14 must file a construction mitigation and restoration plan ("Plan") with Commission
15 Docket Control. Where practicable, the Plan will specify the Applicant's plans for
16 construction access and methods to minimize impacts to wildlife, to minimize
17 vegetation disturbance outside of the Project right-of-way, and to revegetate native
18 areas following construction disturbance.
- 19 11. With respect to the Project, Applicant, or its assignee(s), shall participate in good faith
20 in state and regional transmission study forums such as Southwest Area Transmission
21 to coordinate transmission plans related to the Project.
- 22 12. Within 120 days of the Commission decision granting this Certificate, Applicant, or its
23 assignee(s), will post signs in public rights-of-way giving notice of the Project corridor
24 to the extent authorized by law. The Applicant, or its assignee(s), shall place signs in
25 prominent locations at reasonable intervals such that the public is notified along the
26 full length of the transmission line until the transmission structures are constructed. To

1 the extent practicable, within 45 days of securing easement or right-of-way for the
2 Project, the Applicant, or its assignee(s), shall erect and maintain signs providing
3 public notice that the property is the site of a future transmission line. Such signage
4 shall be no smaller than a normal roadway sign. The signs shall advise:

- 5 (a) That the site has been approved for the construction of Project facilities;
- 6 (b) The expected date of completion of the Project facilities;
- 7 (c) A phone number for public information regarding the Project;
- 8 (d) The name of the Project;
- 9 (e) The name of the Applicant, or its assignee(s); and
- 10 (f) The website of the Applicant, or its assignee(s).

11 13. The Applicant, or its assignee(s), shall provide copies of this Certificate to the Town of
12 Gila Bend, the Maricopa County Planning and Development Department, the Arizona
13 State Land Department, the State Historic Preservation Office, and the Arizona Game
14 and Fish Department.

15 14. Within 120 days after the approval of this Certificate by the Commission, Applicant, or
16 its assignee(s), will provide known homebuilders and developers within one mile of
17 the center line of the Certificated route (i) a copy of this Certificate, (ii) a map showing
18 the location of the Project, (iii) a pictorial depiction of the type of power line being
19 constructed, and (iv) a written request that the developers and homebuilders include
20 this information in the developers' and homebuilders' homeowners' disclosure
21 statements.

22 15. Before commencing construction of Project facilities located parallel to and within 100
23 feet of any existing natural gas or hazardous liquid pipeline, the Applicant, or its
24 assignee(s), shall:

- 25 (a) Perform the appropriate grounding and cathodic protection studies to show that
26 the Project's location parallel to and within 100 feet of such pipeline results in

1 no material adverse impacts to the pipeline or to public safety when both the
2 pipeline and the Project are in operation. If material adverse impacts are noted
3 in the studies, Applicant, or its assignee(s), shall take appropriate steps to
4 ensure that such material adverse impacts are mitigated. Applicant, or its
5 assignee(s), shall provide to Commission Staff reports of studies performed;
6 and

7 (b) Perform a technical study simulating an outage of the Project that may be
8 caused by the collocation of the Project parallel to and within 100 feet of the
9 existing natural gas or hazardous liquid pipeline. This study should either:
10 i) show that such outage does not result in customer outages, or ii) include
11 operating plans to minimize any resulting customer outages. Applicant, or its
12 assignee(s), shall provide a copy of this study to Commission Staff.

13 16. Applicant, or its assignee(s), will follow the latest Western Electricity Coordinating
14 Council/North American Electric Reliability Corporation planning standards as
15 approved by the Federal Energy Regulatory Commission, and National Electrical
16 Safety Code construction standards.

17 17. The Applicant, or its assignee(s), shall submit a self-certification letter annually,
18 identifying progress made with respect to each condition contained in the Certificate,
19 including which conditions have been met. Each letter shall be submitted to the
20 Commission Docket Control on December 1, beginning in 2009. Attached to each
21 certification letter shall be documentation explaining how compliance with each
22 condition was achieved. Copies of each letter along with the corresponding
23 documentation shall be submitted to the Arizona Attorney General and Department of
24 Commerce Energy Office. The requirement for the self-certification shall expire on
25 the date the Project is placed into operation.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This Certificate incorporates the following findings of fact and conclusions of law:

1. The Project is in the public interest because it aids the state in meeting the need for an adequate, economical and reliable supply of electric power.
2. In balancing the need for the Project with its effect on the environment and ecology of the state, the conditions placed on the Certificate by the Committee effectively minimize its impact on the environment and ecology of the state.
3. The conditions placed on the Certificate by the Committee resolve matters concerning the need for the Project and its impact on the environment and ecology of the state raised during the course of proceedings, and as such, serve as the findings on the matters raised.
4. In light of these conditions, the balancing in the broad public interest results in favor of granting the Certificate.

THE ARIZONA POWER PLANT AND
TRANSMISSION LINE SITING COMMITTEE

Hon. John Foreman, Chairman

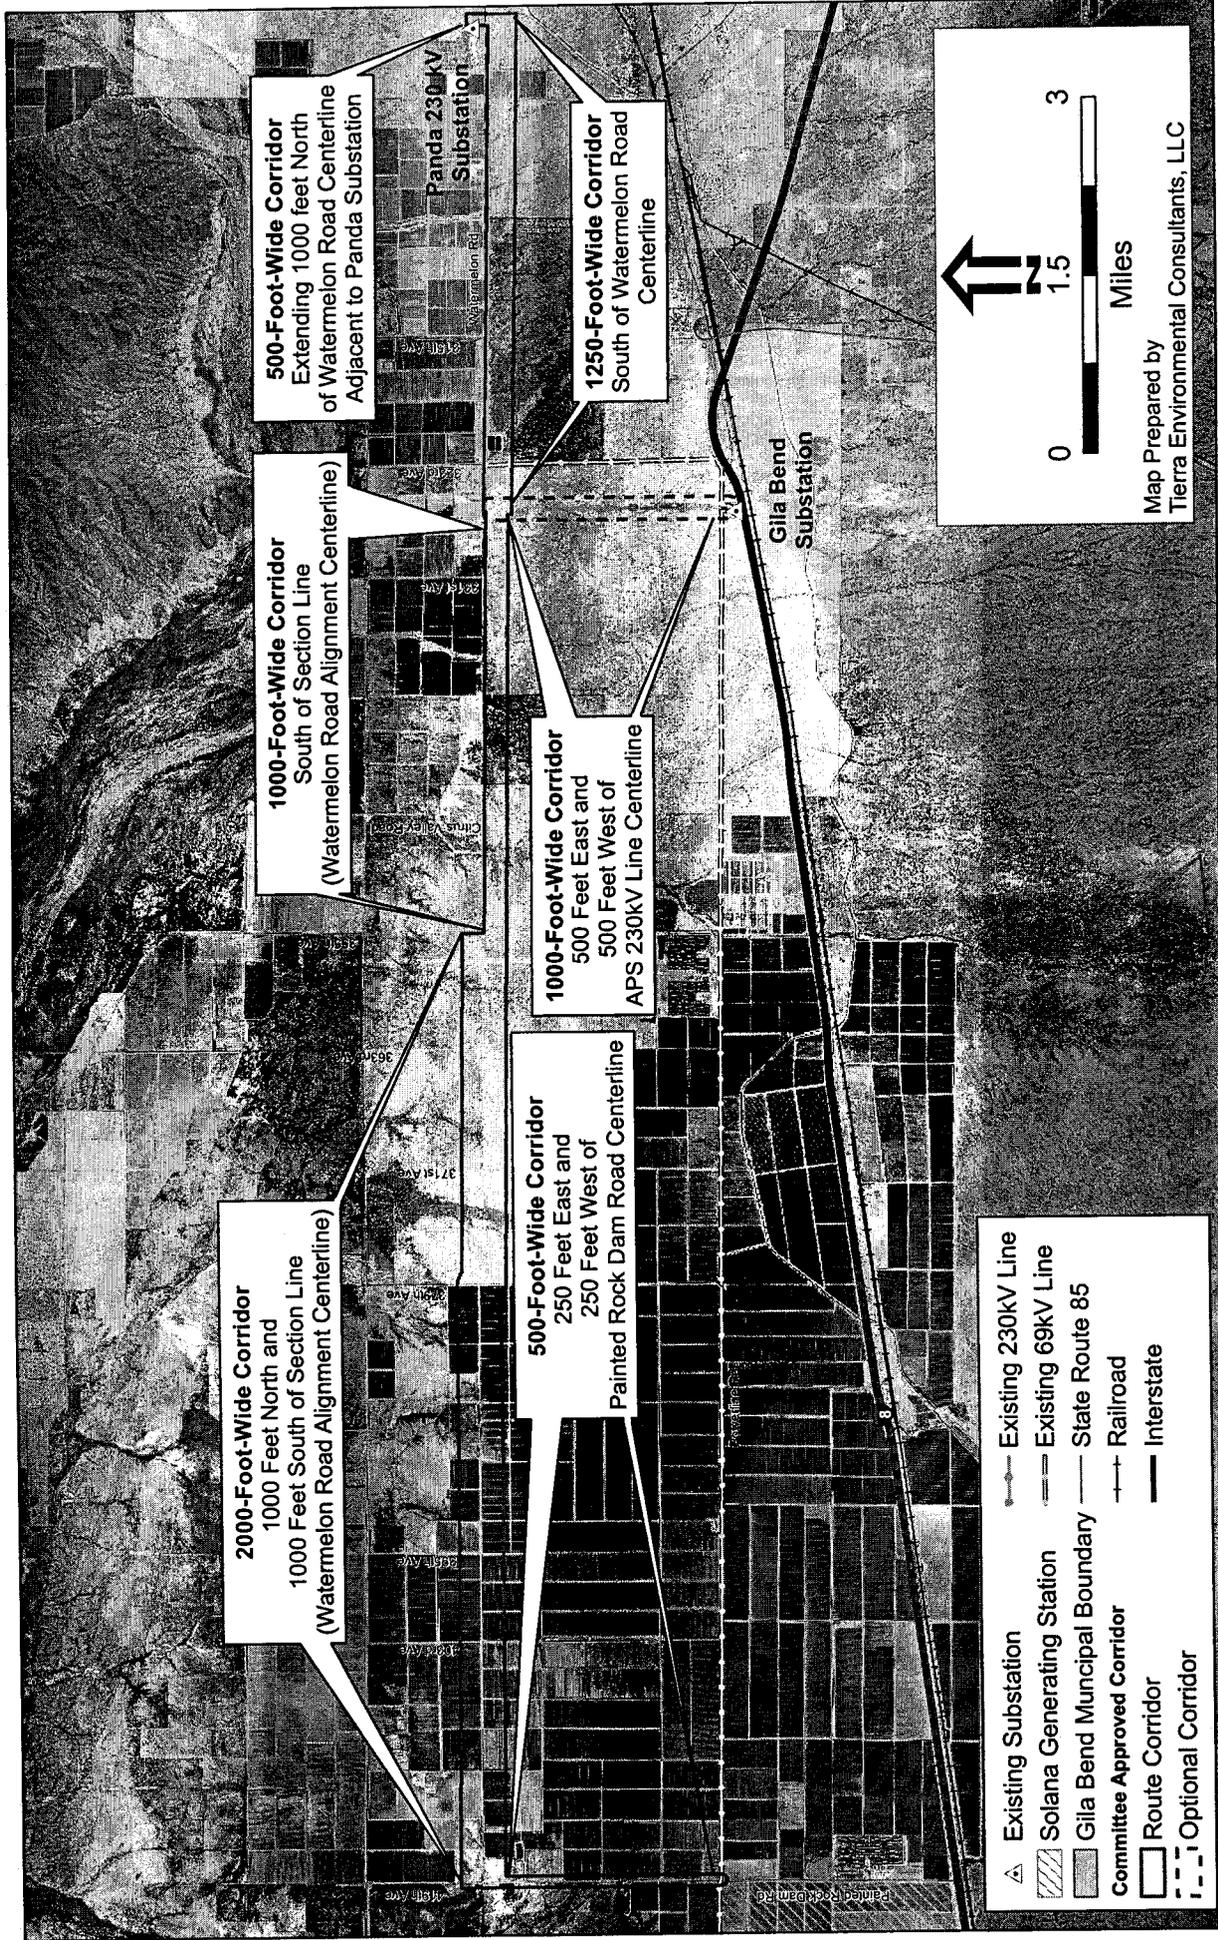

Exhibit A
