## ORIGINAL

Dear Commissioners,

I am writing you today to let you know as a GCWUA board member, 15+ year member of the community, and property owner that I am in support of the proposed increase in BASE RATE to enable us to upgrade our failing water system. I have lived in 4 different houses in Groom Creek over the past 15+ years and have seen the system failing as time progresses. I know that in this current financial downturn this is not a good time to do this, BUT without water who wants to live there. Our house will be worth nothing causing us further fiscal harm. I ask you to support this proposal and allow us to upgrade our system, and allow "Groom Creek" to stay the wonderful place to live that it is.

Thank your for consideration in this very important matter,
