Dear Sir,

It is my understanding you will be conducting a hearing on September 14th 2000 at 9:00 a.m. Dobson Ranch Inn (Banquet Center) located at 1644 S. Dobson Road. Mesa Arizona. The purpose of this meeting being to consider the granting of a Certificate of Environmental Compatibility (CEC) to Salt River Project for the expansion of the San-Tan Generation Station in Gilbert, Arizona.

Please advise your committee, I am in full support of the expansion of the generating station. I request this committee to include my name on the docket for speakers in favor of this project. I also request that I be allowed to speak and make comment of fact at the hearing on said date. Thank you very much for your consideration in this matter.

Respectfully submitted,

Jimmy Hair

Mr. Paul Bullis, Chairman
Power Plant and Transmission Line Siting Committee
1275 W. Washington
Phoenix, AZ 85007

Dear Mr. Bullis:

I am a Scottsdale resident, currently building a new home in Gilbert, AZ. Due to my concern over the San Tan expansion project, I have conducted research on this plan through e-mails, tours, phone calls, meetings, reviewing websites and speaking with residents of surrounding neighborhoods. I have decided to build in Gilbert.

I respectfully request the opportunity to speak at the September 14th hearing with ACC for SRP's Certificate of Environmental Compatibility (CEC). I appreciate your consideration.

Sincerely,

Harry J. Estep

RE: Case No. 105, SRP Santan Expansion Project

Dear Beth:

Enclosed are twenty letters which I have received regarding Case No. 105, the SRP Santan Expansion Project. Please have them placed in Docket Control. In addition, could you please have copies made for each of the Committee members.

Thanks for your help.

Very Truly Yours,

Paul A. Bullis

Dear PAUL Bullis:

AZ CORP COMMISSION

I would like you to know that I am concerned about my family's future, health and quality of life since I live near SRP's SanTan plant here in Gilbert. I also support CITIZENS OPPOSED TO SANTAN (COST) and have asked them to speak for me.

I believe that there are many other alternatives to expanding at SanTan, even if they are not as "cost effective". I ask the ACC and the Power Plant and Transmission Line Siting Committee to look into these options before allowing any hearing or permit. SRP admits that they will need to build additional facilities in the very near future—even with expanding San Tan—but they have not announced where or when. I do not take the need lightly but if they will require building another facility outside of town in the coming years, I would ask the ACC to require that they build a larger facility there and bury the lines coming into town instead of building on a residential street.

I feel that SRP is trying to build this plant without true community input or involvement. I believe that their public process is largely for show and that they are not listening to what is best for our neighborhood. They are willing to listen to suggestions about trees and screening and where on the property the new plants will be located but not whether or not this expansion will be destructive to our neighborhood or property values. None of the SRP or EPG representatives live across the street from this plant as I do. They have also failed to tell me or my neighbors specific information about possible impacts this plant would have on my health or home in any of their mailers.

I realize that SRP has a need for power. I do not believe that I should unfairly bear the burden of this need although I am willing to do my share. This is especially true if SRP intends to sell this power (or use it in town in order to see the power generated from their other coal-burning plants outside of town). I strongly oppose risking my family's health or my property value so SRP can make money. My understanding is that SRP has sold, and will continue to sell, power for profit on the open market whenever it is lucrative to do so even if that means more pollution and noise for those of us in Gilbert - 24/7, year-round. What about the negative impact these huge 15 story tall - very visible smoke stacks will have to us nearby.

Please do what you can to protect our environment, schools, and home values in the affected vicinity of Warner and Val Vista! We love our community and home but feel powerless in the face of an industry giant who wants to destroy what we have worked so hard for. I would also like you to please allow COST to speak on my behalf at any and all meetings in regards to this SanTan expansion. Thank you for helping to protect our future.

Dear PAUL Bullis:

AZ CORP COMMISSION
DOCUMENT CONTROL

I would like you to know that I am concerned about my family's future, health and quality of life since I live near SRP's SanTan plant here in Gilbert. I also support CITIZENS OPPOSED TO SANTAN (COST) and have asked them to speak for me.

I believe that there are many other alternatives to expanding at SanTan, even if they are not as "cost effective". I ask the ACC and the Power Plant and Transmission Line Siting Committee to look into these options before allowing any hearing or permit. SRP admits that they will need to build additional facilities in the very near future—even with expanding San Tan—but they have not announced where or when. I do not take the need lightly but if they will require building another facility outside of town in the coming years, I would ask the ACC to require that they build a larger facility there and bury the lines coming into town instead of building on a residential street.

I feel that SRP is trying to build this plant without true community input or involvement. I believe that their public process is largely for show and that they are not listening to what is best for our neighborhood. They are willing to listen to suggestions about trees and screening and where on the property the new plants will be located but not whether or not this expansion will be destructive to our neighborhood or property values. None of the SRP or EPG representatives live across the street from this plant as I do. They have also failed to tell me or my neighbors specific information about possible impacts this plant would have on my health or home in any of their mailers.

I realize that SRP has a need for power. I do not believe that I should unfairly bear the burden of this need although I am willing to do my share. This is especially true if SRP intends to sell this power (or use it in town in order to see the power generated from their other coal-burning plants outside of town). I strongly oppose risking my family's health or my property value so SRP can make money. My understanding is that SRP has sold, and will continue to sell, power for profit on the open market whenever it is lucrative to do so even if that means more pollution and noise for those of us in Gilbert - 24/7, year-round. What about the negative impact these huge 15 story tall - very visible smoke stacks will have to us nearby.

Please do what you can to protect our environment, schools, and home values in the affected vicinity of Warner and Val Vista! We love our community and home but feel powerless in the face of an industry giant who wants to destroy what we have worked so hard for. I would also like you to please allow COST to speak on my behalf at any and all meetings in regards to this SanTan expansion. Thank you for helping to protect our future.
