Re: Staff's First Set of Data Request to Tonto Creek Utility Company
Docket No. W-02784A-08-0411

Per instructions from secretary to Nancy Scott(Shayla) in phone conversation 10/15/08, we are to mail this to Nancy Scott, Crystal Brown, and Katrin Stukov and take the appropriate number of copies to docket control before 10/20/08.

In answer to your request:

KS 1.1.a.

In September our meter reported 0 gallons pumped. I entered 195,670 gallons pumped because that is what was sold.

In reviewing our spread sheets I find that I copied our spread sheet over after making a hard entry of gallons pumped for September. This erased my formula. I copied the hard entry for Oct and November thus reporting the same amount pumped for those months

Corrected:	Gallons sold		Gallons pumped
October	150,200	1	140,800 The meter was replaced sometime in October so there was still a shortage in gallons pumped
November	133,290		153,700

KS 1.1.b.

Apparently the meter started having trouble in August reporting less pumped than sold. After checking my entry of Gallons pumped for December I found I made a mistake in copying the figures.

Corrected:	Gallons sold	Gallons pumped
December	110,481	230,800 I left a zero out.

CSB 1.1 The fence was not a new fence and was not installed in the test year. It was installed to secure the pump house, tanks and water property. It was installed 1/3/08 and put into service 1/3/08. The cost was \$4,475.00. Copy of invoice enclosed.

CSB 1.2 Seasonal Customers: There are 55 out of 73 connections that are not full time residents. None of these 55 are here months at a time. The usage is weekends. Some homes go months at a time

without any usage at all. Some residents use their cabins as an overnight stop on their way up to ski so just use a few gallons. It would be impossible to try to calculate total months per year per cabin.

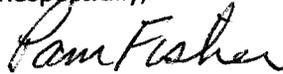

CSB 1.3 Service Charge Review: We did not charge any of these fees in the test year but feel with age and husband's health conditions we will be forced to hire some one to perform some of these services.

CSB 1.4 Documentation for Increases in Miscellaneous Service Charges: We don't have documentation to support the proposed increase. We haven't had an increase in 7 years and feel they are appropriate considering we will have to hire help.

CSB 1.5 Rate Case Expense. Postage to mail customer notification -- I used stamps I had so there is not a separate invoice for stamps. I enclosed the receipt from the last time I purchased stamps before the customer notification mail out. The expense would be $73 \times .42 = \$30.66$. The only other expense was copying the original rate application = \$102.52. Receipt enclosed. Any other copies I had to make we made on our printer at home. We did not charge the water company for trips to the Valley to deliver the application and other information requested.

Total expense: \$133.18

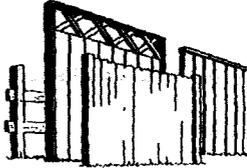

Respectfully,

Pam Fisher
