my name is Sergio A sanchez and my wife Maria Sanchez we have I small mobile home in Hillcrest Bay 2888 Manor View Drive Parker Arizona Parcel # 310-32-030 we want to change our vote to oppose the UCSA because there are many questions about the underground Utilities project Docket Numbers (E-O1345A-07-0663) and (T-O1846B-07-0663) and also we can't afford to spend all this money only because some home owners the not want to see the over head utilities I'm a Electrical Contractor in California and I see some problem all the electrical meters they are top feed this mean all the electrical meters need to be change to underground feed and also where they going to put all the transformers what about the home owner they have the electrical meters flush mounted the need to break the wall to install new meters and also I receive I letter where said we need to pay extra to connect the meter to the Street .

if there some homeowner they want this UCSA let them pay for but not force the home owner they oppose the UCSA to pay.
thank- Sergio Sanchez.
