RE: Docket # E-01345A-07-0663
T-01846B-07-0663

To whom it may concern:

I would like to express my support for the underground utility project. With the deferred cost and the danger of the system we currently have, such as low poles, poles going up through patios and low wires, I think this is an ideal time to move forward with this project, as the opportunity may not present itself again.

I hope you will support this project too. I believe the Hillcrest Home Owners Association will be willing to help with the few homeowners that may need financial assistance to make this project move forward.

Sincerely,

Carl Loftis
