Page 46, line 13, INSERT NEW FINDING OF FACT: "In addition to the DSM programs being implemented and proposed by TEP, the Department of Energy has recently undertaken a Zero-Net energy efficiency program with the goal of minimizing energy use through the incorporation of cutting-edge energy efficiency technologies. The Commission believes it is important for TEP to develop a zero-net energy efficiency program in order to mitigate the impact of price increases on consumers and assist the Company in reliably meeting the needs of future growth."
