Re: Salt River Project Santan Generating Station, Number 105  
Docket No. L-00000B-00-0105, Case No. 105

Dear Mr. Bullis,

**I am writing to you to voice my support for the Santan Power Plant Expansion in Gilbert.**

I am concerned that the continued growth in the East Valley will place demands on the power supply that cannot be met without disruptions, such as brownouts. In light of the current situation in San Diego, I am also concerned about the higher rates that could result if SRP were forced to buy power from other suppliers to meet power demand.

SRP is a company with an admirable record of community service. I feel they have been open in their approach to educating the public about both the need for additional generation and their plans concerning the expansion of the existing plant. Not only is additional generation needed, but also the additional tax dollars generated are sorely needed in our fast growing community.

Again, thank you for your consideration and I encourage you to support the Santan Expansion Project.
