INSERT proposed additional condition:

35. The Santan Expansion Project shall be required to comply with all future new air emission standards promulgated by the U.S. Environmental Protection Agency, the State of Arizona, or Maricopa County after the issuance of its initial air permit. Applicant shall employ new technologies, as they become available, to ensure that the Santan Expansion Project continues to meet LAER standards, as they may evolve over the life of the Project. Applicant shall be responsible to meet these new air emission standards, or to meet new LAER requirements, within 18 months of their effective date, unless Salt River Project is able to demonstrate to the Arizona Corporation Commission that such compliance is not economically feasible. If the Commission finds that unfeasibility has been demonstrated, SRP shall have an additional 18 months within which to meet the new standards at the Santan Expansion Project.
