Gilbert, AZ 85296-3710

Re: Santan Generating Station; Amendment to Decision No. 63611; Case No. 105
Docket No. L-00000B-00-0105

Dear Mr. and Mrs. Seeley:

I appreciate that you took the time to communicate your opinion concerning the proposed amendment to the Certificate of Environmental Compatibility. Your letter has been placed on file in Docket Control and will become part of the record for the review of the commissioners before rendering a decision.

This matter initially comes before the commissioners on Wednesday, June 25, 2003 at 2:00 p.m. in Phoenix for a determination on the procedural process to be used in reviewing SRP's application. It should be noted that no vote will be taken on the merits of the application by the commissioners at this Open Meeting. I will, of course, apply the law and the facts and take into consideration your thoughtful comments when making my decision on this matter. You can visit the Commission's website for information when the matter is scheduled for hearings at the Commission by going to www.cc.state.az.us. Listed on the Commission's Home Page, click the topic of Schedules & Agendas, then double click the subject of ACC Hearings.

Unlike the legislature, a city council, or the board of supervisors, the Arizona Corporation Commission is a quasi-judicial body. We have different rules and statutes that we are required to follow. In a line siting case, the Commissioners review the evidence, just like an appellate court would do, prior to making a decision on the utility's application. When reviewing a company's application, the Commission is required by statute to ensure that Arizona has an adequate, economical and reliable supply of electricity while minimizing the effect on the environment.

Thank you for sharing your viewpoint with me.

Sincerely,

William A. Mundell, Commissioner
Arizona Corporation Commission
