RE: Self-Certification of Environmental Compatibility for the Sundance to Pinal South 230kV  
Transmission Line Project, Decision 70325  
DOCKET NO. L-00000D-07-0682-00136

Dear Mr. Johnson:

Pursuant to Decision No. 70325 dated April 29, 2008, Condition No. 16, Arizona Public Service is hereby filing its self-certification letter and documentation for the Sundance to Pinal South 230kV Transmission Line Project.

If you should have any questions, please contact Jeff Johnson at 602-250-2661.

Sincerely,

  
Barbara Klemstine

December 2008

ARIZONA PUBLIC SERVICE  
SUNDANCE TO PINAL SOUTH 230kV TRANSMISSION LINE PROJECT

*Summary of Certificate of Environmental Compatibility  
Compliance*

**INTRODUCTION:**

Arizona Public Service Company (APS) is submitting the following self-certification documentation pursuant to Condition 16 of the Sundance to Pinal South 230kV Transmission Line Project, Certificate of Compatibility Case No. 136, Docket No. L-00000D-07-0682-00136, Decision No. 70325.

The following Condition Table lists all the requirements and the status of compliance activities. Each tab thereafter references applicable compliance documentation.

No construction activities have occurred as of November 1, 2008; therefore, many of the certificate conditions do not apply at this time.

**Arizona Public Service**  
**Summary of Certificate of Environmental Compatibility Compliance**  
**Sundance to Pinal South 230kV Transmission Project**

Certificate Condition	Compliance
1. The Applicant shall obtain all required approvals and permits necessary to construct the Project.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
2. The Applicant shall comply with all existing applicable ordinances, master plans and regulations of the State of Arizona, the County of Pinal, the United States, and any other governmental entities having jurisdiction.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
3. This authorization to commence construction of the Project shall expire seventeen years from the date the Certificate is approved by the Commission; provided, however, that prior to such expiration the Applicant or its assignees may request that the Commission extend this time limitation.	Project was certificated April 29, 2008. Authorization to construct the Project expires April 29, 2025. An extension of the term of the Certificate is not required as of this filing.
4. The Applicant shall make every reasonable effort to identify and correct, on a case-specific basis, all complaints of interference with radio or television signals from operation of the transmission lines and related facilities addressed in this Certificate. The Applicant shall maintain written records for a period of five years of all complaints of radio or television interference attributable to operation, together with the corrective action taken in response to each complaint. All complaints shall be recorded to include notations on the corrective action taken. Complaints not leading to a specific action or for which there was no resolution shall be noted and explained.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
5. The Applicant shall comply with the notice and salvage requirements of the Arizona Native Plant Law and shall, to the extent feasible, minimize the destruction of native plants during Project construction.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
6. Pursuant to A.R.S. 5 41-844, if any archaeological, paleontological or historical site or object that is at least fifty years old is discovered on state, county or municipal land during plan-related activities, the person in charge shall promptly report the discovery to the Director of the Arizona State Museum, and in consultation with the Director, shall immediately take all reasonable steps to secure and maintain the preservation of the discovery. If human remains and/or funerary objects are encountered on private land during the course of any ground-disturbing activities relating to the development of the subject property, Applicant shall cease work on the affected area of the Project and notify the Director of the Arizona State	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.

Certificate Condition	Compliance
Museum pursuant to A.R.S. 5 4.1-865.	
7. The Applicant shall design the transmission lines so as to mitigate impacts to raptors.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
8. The Applicant shall use non-specular conductor and dulled surfaces for transmission line structures.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.
9. Within 120 days of the Commission decision granting this Certificate, Applicant will post signs in public rights-of-way giving notice of the Project corridor to the extent authorized by law. The Applicant shall place signs in prominent locations at reasonable intervals such that the public is notified along the full length of the transmission line until the transmission structures are constructed. To the extent practicable, within 45 days of securing easement or right-of-way for the Project, the Applicant shall erect and maintain signs providing public notice that the property is the site of a future transmission line. Such signage shall be no smaller than a normal roadway sign. The signs shall advise:  (a) That the site has been approved for the construction of Project facilities;  (b) The expected date of completion of the Project facilities;  (c) A phone number for public information regarding the Project;  (d) The name of the Project;  (e) The name of the Applicant; and  (f) The Applicant's website.  Sign placement will be reported annually in accordance with Condition 16.	APS posted signage in public rights-of-way on August 14, 2008 giving notice of the project corridor. An example of these signs, as well as a map identifying the locations of these signs, is included behind the Tab marked Condition 9.
10. Before construction on this Project may commence, the Applicant must file a construction mitigation and restoration plan ("Plan") with ACC Docket Control. Where practicable, the Plan shall specify that the Applicant use existing roads for construction and access, minimize impacts to wildlife, minimize vegetation disturbance outside of the Project right-of-way, and revegetate native areas following construction disturbance.	Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.

**Arizona Public Service**  
**Summary of Certificate of Environmental Compatibility Compliance**  
**Sundance to Pinal South 230kV Transmission Project**

Certificate Condition	Compliance
<p>11. With respect to the Project, Applicant shall participate in good faith in state and regional transmission study forums to coordinate transmission expansion plans related to the Project and to resolve transmission constraints in a timely manner.</p>	<p>The APS local transmission planning process is coordinated with other regional utilities, including Western Area Power Administration and Salt River Project through recurring quarterly joint-coordination meetings, as well as other day-to-day communication. This transparency has fostered the development of electric infrastructure that has maintained reliability and met load growth. In addition to its local planning process, APS coordinates its transmission planning with other transmission providers and stakeholders in the Desert Southwest, and the Western Interconnection as a whole, through its active participation in the Southwest Area Transmission (SWAT) planning group, membership in WestConnect, membership in the Western Electricity Coordinating Council (WECC) and participation in the WECC Transmission Expansion Planning Policy Committee (TEPPC) and its Technical Advisory Subcommittee (TAS).</p>
<p>12. The Applicant shall provide copies of this Certificate to Pinal County Planning and Development, the Arizona State Land Department, the State Historic Preservation Office, and the Arizona Game and Fish Department.</p>	<p>The CEC was published on the APS siting website (<a href="http://www.aps.com/siting">www.aps.com/siting</a>) within 10 days of receiving the CEC. In addition, each of the jurisdictions and agencies were sent individual copies (via certified mail) of the CEC approval on June 26, 2008.</p>
<p>13. Prior to the date this transmission line is put into commercial service, the Applicant shall provide known homebuilders and developers within one mile of the center line of the Certificate route the identity, location, and a pictorial depiction of the type of power line being constructed, accompanied by a written description, and encourage the developers and homebuilders to include this information in the developers' and homebuilders' homeowners' disclosure statements.</p>	<p>Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.</p>

**Arizona Public Service**  
**Summary of Certificate of Environmental Compatibility Compliance**  
**Sundance to Pinal South 230kV Transmission Project**

Certificate Condition	Compliance
<p>14. The Applicant will not construct the Project on any portion of the existing Pinal County Fairgrounds, a 120+/- acre parcel, owned by Pinal County, described as N112 SE 114 and the SE114 NE114 Section 25, T6S, R7E, G&amp;SRB&amp;M, Pinal County, Arizona, without the prior written consent of Pinal County.</p>	<p>Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.</p>
<p>15. Before commencing construction of Project facilities located parallel to and within 100 feet of any existing natural gas or hazardous liquid pipeline, the Applicant shall:</p> <p>(a) Perform the appropriate grounding and cathodic protection studies to show that the Project's location parallel to and within 100 feet of such pipeline results in no material adverse impacts to the pipeline or to public safety when both the pipeline and the Project are in operation. If material adverse impacts are noted in the studies, Applicant shall take appropriate steps to ensure that such material adverse impacts are mitigated. Applicant shall provide to Commission Staff reports of studies performed; and</p> <p>(b) Perform a technical study simulating an outage of the Project that may be caused by the collocation of the Project parallel to and within 100 feet of the existing natural gas or hazardous liquid pipeline. This study should either: i) show that such outage does not result in customer outages; or ii) include operating plans to minimize any resulting customer outages. Applicant shall provide a copy of this study to Commission Staff.</p>	<p>Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.</p>
<p>16. The Applicant shall submit a self-certification letter annually, identifying progress made with respect to each condition contained in the Certificate, including which conditions have been met. Each letter shall be submitted to the Utilities Division Director on December 1 beginning in 2008. Attached to each certification letter shall be documentation explaining how compliance with each condition was achieved. Copies of each letter along with the corresponding documentation shall be submitted to the Arizona Attorney General and Department of Commerce Energy Office. The requirement for the self-certification shall expire on the date the Project is placed into operation.</p>	<p>Compliance with this Condition is evidenced by the submission of this filing.</p>
<p>17. Applicant will follow the latest Western Electricity Coordinating Council/North American Electric Reliability Corporation Planning standards as approved by the Federal Energy Regulatory Commission, and National Electrical Safety Code construction standards.</p>	<p>Final design or construction for this project is not complete as of November 1, 2008; however, activities and documents related to this Condition will be provided when applicable.</p>

# **CONDITION 9**

## **CONDITION 9**

Within 120 days of the Commission decision granting this Certificate, Applicant will post signs in public rights-of-way giving notice of the Project corridor to the extent authorized by law. The Applicant shall place signs in prominent locations at reasonable intervals such that the public is notified along the full length of the transmission line until the transmission structures are constructed. To the extent practicable, within 45 days of securing easement or right-of-way for the Project, the Applicant shall erect and maintain signs providing public notice that the property is the site of a future transmission line. Such signage shall be no smaller than a normal roadway sign. The signs shall advise:

- (a) That the site has been approved for the construction of Project facilities;
- (b) The expected date of completion of the Project facilities;
- (c) A phone number for public information regarding the Project;
- (d) The name of the Project;
- (e) The name of the Applicant; and
- (f) The Applicant's website.

Sign placement will be reported annually in accordance with Condition 16.

## **COMPLIANCE**

APS posted signage in public rights-of-way on August 14, 2008 giving notice of the project corridor. An example of these signs, as well as a map identifying the locations of these signs, is included behind the Tab marked Condition 9.
