American Water Works had an increase in equity from March 2008 to September 2008, of \$3,809,000,000 to \$4,167,000,000 (we understand through our neighbors). It seems that we need a refund instead of a raise in our bills. When we moved here 5 years ago, we were told to get rid of our grass, (the water company told us) and turn it into a desert scene. We did, and it wasn't cheap! Then we see homes being built like ant hills all over the desert. Why? All these new homes have water pipes going to them! If we were in such a desperate water shortage, why build more homes and ruin our deserts and increase the shortage? It seems to me there is a serious lack of management. Why not let people move into houses already available? We do not need an increase in our water bill. We are being milked in every way, from every direction, and we don't have a government to protect us, because the government has been milking us too! The greed has taken over like a monster tick and the middle class are doing their best to keep their blood from running dry! When we are gone, who will keep this country going? The super rich will start killing each other for their money. Then China will completely take over, and take over our WATER RIGHTS too! All our neighbors are as unhappy as I am. PLEASE DON'T LET THEM RAISE OUR WATER RATES! WE HAVE TO START SOMEWHERE, BECAUSE TOO MUCH IS AT STAKE IN OUR BEAUTIFUL COUNTRY!

Sincerely,

Beverly M. Hurt

W-01303A-08-0227

Dear Sirs;

SW-01303A-08-0227

I'm outraged that you would seek to destroy my retirement. I moved to Mohave County 3 years ago. Since then I have seen my dollar lose it's worth and you raise my bills. My property taxes have gone up and the value of my land goes down.

Now you are about to raise my sewer bill to 4 times what was when I moved here. The cost of getting rid of my water is 6 times higher than to use. Also 45% of my water is recycled back into the ground for watering and such

As stated I'm retired and on a fixed income. Why should I pay for you to maintain your payroll and your bonuses. Do what every one else is doing bite the bullet and cut hours. Also should you re evaluate your plants and current usage to maxized what have and stop hooking up new tracks until we can all get a handle on the situation.

Shouldn't the cost be passed on to the new costumers? Why do I have to pay for something I really do not want. I rather have a septic tank put in my yard and pumped.

Robert Campbell
