Page 10, line 1, INSERT NEW FINDING OF FACT:

“Renewable Reporting

The Commission is concerned that the current renewable reporting requirements provide insufficient detail on the progress of APS’ programs for the Commission and the public to accurately assess the Company’s efforts toward meeting the REST. Access to information on a more regular basis would better inform the public and greatly improve monitoring of REST progress.”

Page 12, line 14, INSERT NEW ORDERING PARAGRAPH:

“IT IS FURTHER ORDERED that Arizona Public Service Company shall disclose, on a quarterly basis via their website, their annual progress to date in meeting the annual REST requirement. At a minimum, APS shall disclose i) total and program year-to-date numbers of Megawatts and systems installed, broken out by technology type and residential and non-residential categories and ii) total amounts of monies remaining for the current program year with breakouts for residential and non-residential categories. APS shall provide this information going forward and additionally break out this information on a historical basis to date.”

Make all conforming changes.
