Subject: W-03512A-07-0362

I notice that on the last two documents filed by Mr. Gliege that he has added "PSWID" to the designation "attorney for." I assume that this acronym stands for Pine Strawberry Water Improvement District. Does addition of "PSWID" in the "attorney for" annotation mean that PSWID has now become an intervenor in the above captioned case? Is there a proper procedure for becoming an intervenor and did PSWID follow that proper procedure?

Thank you for your attention to this matter.

Subject: Open Meeting Agenda Item #13

Commissioners,

I am unable to attend the Open Meeting on 12/16/08 but as a full-time resident of Pine, AZ (6479 Jan Drive) and subject to Pine Water Company actions I wish to have my comments part of the record.

Item #13 Pine Water Company - Application for Approval to encumber part of its physical plant and system and issue evidence of indebtedness.

If I am correct, Pine Water Company is asking for approval to continue on the K2 Well Project.

Please vote Against Item #13 - the approval for continuing the K2 Well. It is in not in the best interest of the residents that live here. We have a local water board working hard to effectively solve our local water issues, which includes undoing the K2 Well Joint Agreement. Please allow them to solve this issue at the lowest level and stop the K2 Well from proceeding any further.

Sincerely, Tom Sindik 928-476-3445
