Subject: RATE increase to APS

You, Gary Pierce, Jeff Hatch-Miller, and Bill Mundell are FOOLS with a capital F. It's not like we have three power companies vying for our business. APS is an inefficient company run by morons. If they do stupid things like buying a new fleet of trucks every year instead of keeping them going for longer periods of time, or paying dividends to stockholders when they really don't have the money. They should have suspended dividends for three years before asking you for an increase. I mean the rates are already too high, so we consumers cut back to save money and then the companies want another increase. Where does it end? All you did was pass on a dividend from me to their stockholders. We keep our home uncomfortably warm all summer to avoid a high electric bill, and now it will be even more uncomfortable. Let these scumbags fail, someone else will be right behind them to pick up the slack. Only the new guys will be more competitive in their pricing. You guys are worthless, I can't believe you partook in this charade. I'm confident in my assumption that none of you morons have ever run your own business and had to earn an honest living. You disappoint me so. I hope your holidays are as miserable, as all us consumers whom YOUR SUPPOSED TO PROTECT are going to be with this unwarranted indirect tax you burdened us with. Jay Jenkins Peoria, AZ.
