DOCKETED BY 

Dear Mr. Goddard:

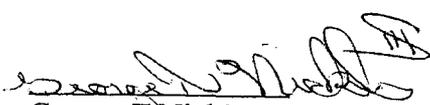

We are a group of Mohave County residents who have "gone green" by installing solar and wind power.

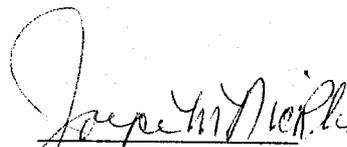

It is our understanding there is a federal mandate in place that we be credited using net metering for what we over generate that goes back into the grid with Mohave Electric Cooperative. We would like to institute net metering credits from MEC as soon as possible. Unisource, another county provider, has been net metering for five (5) years.

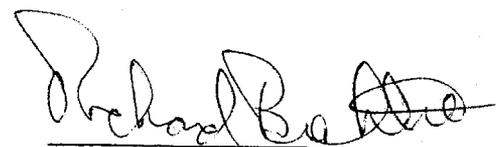

The Arizona Corporation Commission passed Docket No. W-RE-0000A-07-0608 and we have been told the file is now in your hands for approval. What can we do as a group of concerned citizens to help expedite this file?

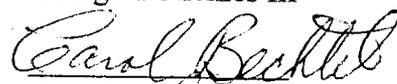

We anxiously await your response.

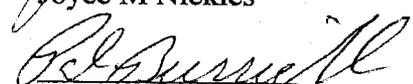

Sincerely,
