RE: Arizona Public Service Company's DSM Program Budget  
Docket No. E-01345A-05-0477

On January 12, 2009, APS filed its updated budget of the "Portfolio Plan Update 2008-2010," pursuant to Decision No. 70637.

"APS shall reallocate its DSM program budget for the 2008 through 2010 planning years to be consistent with the re-definition(s) of the Small Non-Residential, Non-Residential Existing, and Non-Residential New program customer size categories ordered herein or any other changes ordered herein; and that APS shall either inform Staff that no reallocation is necessary, or file an update to the budget portion of its "portfolio Plan Update 2008 - 2010," filed in Docket No. E-01345A-07-0712, to reflect such redefinition(s) or other changes not later than 30 days after a Decision in this matter."

APS is amending that update. Enclosed is the revised version replacing the January 12, 2009 filing. The actual 2008 expenditures will be finalized and documented in the upcoming July-December 2008 Semi-Annual Report.

The 2009 and 2010 Non-Residential average annual budget has been reallocated with the following major changes:

- All Building Operator Training budget amounts have been rolled into the Large Existing program since program was eliminated in Decision 70637.
- Money was shifted out of the Large Existing program to the Small Business program to recognize the anticipated future activity of the Direct Install measure.
- Money was shifted out of the New Construction program to Small Business to recognize the future slow down of Construction due to the economy.
- The total Non-Residential Training and Technical Assistance category has been increased to \$250,000 to support more training. Additional training is based upon previous success of these classes, which are highly rated by our customers.

As a convenience, we will also file this information in the docket with the Company's DSM Budget for 2008-2010, Docket No. E-01345A-07-0712.

Sincerely,
