SECTION 3 - BUSINESS NETWORK SWITCHED SERVICE *continued*

3.6 Foreign Exchange Services

3.6.1 Description

(M)(T)

Foreign Exchange Service allows a Customer to receive local exchange service from a rate center different from the Customer's physical location. Except as specified below, Foreign Exchange Service is furnished in conjunction with local exchange service such as PRIs or Trunks, pursuant to the applicable local tariff.

Foreign Exchange Service may only be provisioned where the Company offers local exchange switched services and as facility and switch conditions permit. The dial plan (local calling) is associated with this "foreign" rate center.

The Company reserves the right in its discretion, upon thirty (30) days' notice to the Customer, to discontinue provision or increase the price of any Foreign Exchange Service in the event that regulatory conditions and/or interconnection agreements affecting the Company's provision of Foreign Exchange Service change after the date of the Customer's Agreement. In the event that the Customer does not accept the Company's rate increase, the Customer may discontinue the affected Foreign Exchange Service without penalty upon thirty (30) days' notice to the Company. The Customer may be required to change its virtual telephone number(s) if the Company adds additional equipment, such as a Central Office, in its serving area and transfers NXX codes into the new equipment. The Company is unable to guarantee the completion of calls to the Foreign Exchange Service telephone number from exchanges other than the exchange with which the telephone number is associated, even though the Customer in other exchanges may have local calling plans that include calls to end users physically located in the exchange with which the foreign Exchange Service telephone number is associated.
