Docket for Comment; Proposed Emergency Application for Interim Rates and Changes [Expedited Action Requested] Far West Water & Sewer

Case or Utility Name: Far West Water an Sewer Company, Yuma, Arizona  
03478A-08-0608

Docket #WS-

Position on the Docket: Con

Farwest Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month charged each month of the year whether the consumer is using his or her property and the services of Farwest Water and Sewer Company for twelve months, six months or even only one month per year.

# ARIZONA CORPORATION COMMISSION

## UTILITY COMPLAINT FORM

---

It is not unreasonable to expect a company to make a profit, but it unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Farwest Water and Sewer and not the current customers.

The current customers purchased their properties, a good percentage of them originating from the development company, also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely, Ivy and Josette Sutton  
\*End of Complaint\*

### **Utilities' Response:**

### **Investigator's Comments and Disposition:**

I e-mailed the customer the following:

Dear Mr. and Mrs. Sutton,

I received your e-mail regarding the proposed emergency rate increase application for Far West Sewer Company ("Company"). I appreciate the time that you have taken to express your comments regarding this matter.

Your letter regarding the Company's rate case has been entered into our database and filed with the Docket Control Center of the Arizona Corporation Commission ("Commission") to be made part of the record. The Commissioners will consider your comments before a decision is rendered in the Company's application.

The concerns raised in letters received from customers will assist the Commission in the review of the rate application. The Commission's independent analysis of the utility and its rate request attempts to balance the interest of the utility and its customers.

Commission Staff is very sensitive to the burden that high utility rates can place on the consumer, and though constitutionally required to allow a fair return to the utility, does everything within its authority to protect the consumer.

You may call me toll free at 1-800-535-0148 if you have any questions regarding this matter.

Sincerely,

Reg Lopez  
Public Utilities Consumer Analyst II  
Utilities Division

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

ENTER YOUR COMMENTS HERE:

I have lived from coast to coast over my working years. In that time, I have never seen a 12 month sewer charge. The charge was always based on water used, even with a separate water and sewer company. Granted Far West does have an investment in pipe and collection facilities. The biological demand is virtually zero in the summer months. In the interest of conserving water, a far more environmentally friendly and fairer cost structure would be to have a minimum charge to cover the cost of their assets for the entire 12 months and then a charge based on water used during the months of use and higher load on the treatment facilities.

Now to my main complaint, besides minimal customer service, is the fact that the Far West Water Company has a "sister" company actively selling new lots. If they can not take care of what they have, why are they developing more lots with increased demand on their facilities? Further, who has given permits for these new lots? +

ENTER YOUR COMMENTS HERE:

A raise of the amount that Far West Water and Sewer is asking for is unconscionable. Far West is asking for this from retired seniors on fixed incomes, which is the majority of their customers. These seniors already pay 12 month a year sewer bill for only 6 months use. These raises would drive residents out of the area and contribute to more vacant property and less income for Yuma County and the State of Arizona. The State needs to audit the books and see if companies such as the development groups are getting a free ride on their sewer and water installations and any other areas where they should have been making money. Since Hank Schechert's death is seems that there has been runaway development of the foothills area and questionable safety for workers, what withe the death of two Far West workers and the injury of another. If Far West cannot run the company properly, they should bankrupt it and let another company take it over or, sell it to someone who can.

Re:

Docket for Comment: Proposed Emergency Application for Interim Rates and Charges  
(Expedited Action Requested) for Far West Water & Sewer  
Case or Utility Name: Far West Water and Sewer Company, Yuma, Arizona  
Docket #WS-03478A-08-0608  
Position on the Docket: Con

Far West Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month now charged whether the consumer is using his/her property and therefore sewer services for twelve months, for six months or even only for one month per year.

It is not unreasonable to expect a company to make a profit, but it is unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Far West Water and Sewer and not the current consumers.

The current consumers purchased their properties, a good percentage of them originating from the development company also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely,

R. L. Huter  
9636 E 33rd Ln.  
Yuma, AZ 85365

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

Far West Water and Sewer have a dismal record when it comes to providing services. There present need for cash resulted from poor judgement and management, not from a unexpected event.

H&S Development is owned by the same family and has hundreds of unsold lots in the area and is in the process of developing more. There is no way an individual can track the benefits one company gets from the services provided by the other.

I believe that it is not in the best interest of the rate payer to have ownership and management of these companies in the same hands and that no rate increase should be granted until that is achieved.

Ref: Docket No. WS-03478A-08-0608

To Whom It May Concern,

My wife and I are property owners in the Foothills area of Yuma County and of course, customers of Far West Water and Sewer Company. We are opposed to the "Emergency" interim increase requested by Far West Water. We concede a small increase is appropriate but believe 109 percent is excessive. Any increase granted to Far West Water should not be greater than fees charged by Yuma city (\$29.46/mo.) or at the outside, Yuma County (\$37.50/mo.). Far West Water and Sewer has already imposed an increase of what amounted to 140 percent for me by making it mandatory that the sewer fee be paid for 12 months as opposed to the 5 months we have the water turned on. I am not sure of the time but I believe it was in 2005.

A side comment-----Far West states that if the interim increase is greater than the permanent increase granted they would refund the overcharge to the patrons. I wonder how they could afford to do that, given they are financially "strapped".

Respectfully,

  
David Cameron

  
Lois Ann Cameron
