Re: Docket No. E-01345A-08-0172

I am very distressed at this commission for always hiking the utilities rates. It's the rate payers that make Arizona Public Service such a lucrative company. If they need money let them go to the bank and get a loan, that's what I have to do, or let them sell some more of their stock. The reason they need operating capital is because of their POOR management.

They are a very unscrupulous corporation. If they want your property they offer you a low offer and if you don't take it they sue you for eminent domain.

Why would this commission take away the "thousand foot" allowance land owners were allowed to get electricity to our houses and buildings? By doing that you have stagnated building and development in a time when our economy needs it. It cost \$8k dollars if the pole is at the corner of your property, now who's have bight idea was that, well it doesn't matter it too a two thirds vote, so you're all involved? You have driven down property prices and made Arizona hostile to business and development. You're saying "DON'T MOVE TO ARIZONA WE DON'T WANT YOU.

I am very disappointed in how this commission runs and conducts itself. The members upon this commission should have to be voted into their position and not appointed. I feel that A.P.S. can sell some of their stock to raise capital and I am not in favor of the proposed rate hike. I want this commission to turn A. P. S. DOWN on
