RE: Far West Water & Sewer, Inc. - Customer Comments
Docket No. WS-03478A-08-0608

Please docket the attached 83 customer comments OPPOSING the above filed rate case.

Customer comments can be reviewed in E-docket under the above docket number.

Filed by: Utilities Division – Consumer Services

Arizona Corporation Commission
DOCKETED
FEB 26 2009

**AZ CORP COMMISSION
DOCKET CONTROL**

2009 FEB 26 P 3:42

RECEIVED

ARIZONA CORPORATION COMMISSION
UTILITY COMPLAINT FORM

customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Farwest Water and Sewer and not the current customers.

The current customers purchased their properties, a good percentage of them originating from the development company, also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely,

Ronald and Blanche Reeder

February 26, 2009

RE: FAR WEST WATER & SEWER COMPANY

Dear Water Customer:

Your email regarding the Far West Water & Sewer ("Far West") rate case will be placed on file with the Docket Control Center of the Arizona Corporation Commission ("Commission") to be made part of the record. The Commission will consider your comments before a decision is rendered in the Far West application.

The concerns raised in letters received from customers will assist the Commission in the investigation and review of the rate application. The Commission's independent analysis of the utility and its rate request attempts to balance the interest of the utility and its customers.

Commission Staff is very sensitive to the burden that high utility rates can place on the consumer, and though constitutionally required to allow a fair return to the utility, does everything within its authority to protect the consumer.

Staff appreciates your comments and the interest taken on the proposed rate increase.

Sincerely,

Alfonso Amezcua
Public Utilities Consumer Analyst II
Utilities Division

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

I am a winter visitor to the foothills where I own a house. I am retired on a fixed income. The only water I use the rest of the year is to keep my trees and flowers alive. This water does not enter the sewage system and I don't use any other water. I think it is totally unfair to be charged for sewage at a fixed rate when I'm not here from Apr to Nov.

Sewage should be charged based on the amount of water used, as is done in KANSAS where I live the rest of the year.

WE OWN THE ABOVE PROPERTY - which we have been trying to sell for ^A YEARS TO NO AVAL. Many prospective buyers ask if we are on septic or sewer. Sewer is available but we have not started service because we cant afford to pay for services not rendered on top of the loss of income. It is not to a buyers advantage to own investment property in the foothills.

FAR WEST CHARGES \$25EA TIME TO START & STOP SERVICE & THEN CONTINUES TO CHARGE US FOR SEWER FOR THE 12 MONTHS WE ARE NOT HERE, THEY DO ABSOLUTELY NOTHING DURING THIS TIME, AFTER ALL WE WERE CHARGED TO TAKE US OUT OF THE SYSTEM. WITH ALL THE PART-TIME PROPERTY OWNERS WHAT DO THEY DO WITH ALL THIS MONEY? IF THEY ARE SO BROKE WHY DO THEY KEEP DEVELOPING THEIR PROPERTIES? THIS SEEMS TO BE A CONFLICT OF INTEREST & MIS-MANAGEMENT OF FUNDS. THEY NEED TO LEARN TO RUN THIS BUSINESS MORE EFFECTIVE & EFFICIENTLY. FOOTHILLS CANT AFFORD THIS INCREASE IT WILL JUST CAUSE MORE PEOPLE TO LEAVE THE AREA & GO ELSEWHERE & IT DOESNT ENCOURAGE NEW OWNERSHIP OR BUSINESS. WE FEEL THIS INCREASE GOES BEYOND REASONABLE!

Re:

Docket for Comment: Proposed Emergency Application for Interim Rates and Charges
(Expedited Action Requested) for Far West Water & Sewer
Case or Utility Name: Far West Water and Sewer Company, Yuma, Arizona
Docket #WS-03478A-08-0608
Position on the Docket: Con

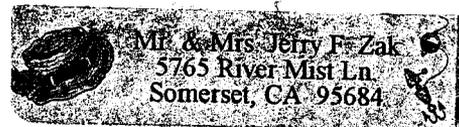

Far West Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month now charged whether the consumer is using his/her property and therefore sewer services for twelve months, for six months or even only for one month per year.

It is not unreasonable to expect a company to make a profit, but it is unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Far West Water and Sewer and not the current consumers.

The current consumers purchased their properties, a good percentage of them originating from the development company also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely,

Mr & Mrs. Jerry F Zak

13619 E 55 ST
YUMA AZ 85367

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

An application has been filed with you from "Far West Water & Sewer Co." for an increase of 214.8% in annual revenue. This increase is totally out of line. They want us, the customers to subsidize their own private bail out. They are still relying on you to approve it. We are counting on your Commission to put a stop to the outrageous attempt at gouging. This is a vacation property for us and therefore we find it totally unacceptable to all those who live in the Foothills. This increase would put a huge hardship on us, especially during this fallen economy. Thank you in advance for your careful consideration in this matter.

To whom it may concern :

The recent requests made by Far West Water & Sewer Co. for outrageous rate increases is further evidence that this service should be provided by a local government, possibly Yuma County, as a public utility. The Foothills Area may have to be incorporated to do this, but whatever, it is time. Most public utilities pay for things like sewer upgrades by using bonds, loans, etc., not by gouging their customers up front to pay for a specific project. In recent years there have been management mistakes (i.e. not gas-freeing a tank prior to repairs) by this company that has to be part of the problem. If the subject rate increases are approved it is my belief that the development and economy in the Foothills Area will be severely impaired.

When we purchased our property in 1994 we did not have to pay for sewer when we were not using it - or water - now Far West are charging us for the sewer 12 months a year when we only use it for 5 months - we had to pay for the sewer system of our subdivision then - so now we should not have to pay for sewers in these new subdivisions now! Do to the madaguite manadagement and greed of the far west owners -

Sincerely
Darrel C. Morrison

ENTER YOUR COMMENTS HERE:

Here again, as in the 241% rate increase (WS-03478A-08-0454) proposal, we the users of Far West Water and Sewer (FWWS) are being asked for rate increases far in excess of other similar sewer providers.

How could things get so desperate so fast? I feel like a lack of planning on the part of FWWS has been transformed into an Emergency on our part. Even a few rumors of bankruptcy are starting to surface. Was a contingency plan in place? Was a non performance bond required by the original permitting authority? Some of the recent activities in the nation's capital seem to be spilling over into Yuma, AZ.

Perhaps the Arizona Corporate Commission can come up with a far fairer proposal, and please force FWWS to provide a better level of customer service.

Thank you,
Bill Parman

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

CONTINUE YOUR COMMENTS HERE:

B. Far West Water and Sewer Co and H&S Developers has been fined and is required to pay penalties, for numerous repeated alleged water and air quality violations dating back as far as 1989 and as recently as the 50 counts filed September 9, 2008 that could amount to a judgment of millions of dollars. H & S Developers is also named because it provided the services until forming Far West as a separate company in 1998 and transferring drinking water and wastewater facilities ownership to the new company.

C. In 2006 Farwest Water & Sewer finally came in to compliance with ADEQ. The company has now since expanded its lagoon by 300%. We speculate that this effort was only put forth to compensate for the recent Subdivision that H&HS Development Co. just started.

D. H & S Development Co. recently opened El Rancho Encantado a new subdivision of RV Homes which consists of 219 sites with two RV hookups including Electrical service, sewer dump & water on each site. This is phase one of the project with two more phases to come. We question whether or not this latest request for a rate increase is designed to help pay for the new Wastewater Plant needed to support this new development?

E. Winter Residents currently flock to Yuma because of the weather, and because it is economically feasible to maintain a second home here. Winter residents increase Yuma's population each year by more than 80,000 people with the majority living in the Foothills. This population will be especially affected by this increase because for 6-8 months out of the year they pay for their sewer fees despite being unable to flush their toilets because they have returned to their primary residence.

F. Of the Year round Foothills residents there is still a large majority of Retirees living on a fixed income. Many more are the working class. If the proposed increase passes it would only succeed in further devastating the local economy. There are many folks who live paycheck to paycheck as it is. A fee increase as proposed could potentially force many people to sell or foreclose. With the housing market as it is today, this will only add to the declining economy.

In Conclusion

- We don't feel that Current customers should incur the costs necessary to cover a new Wastewater Plant needed to compensate for future growth. At most this cost should be absorbed by impact fees on the new lots being developed.
- We believe they have not suggested this because it would reduce the parent Company's building profits, in part due to the recession limiting the builder's inability to charge more than the market will bear.
- We further feel that this increase is also being requested as a direct result of negligence on the part of the Water Company, Farwest Water & Sewer. It appears as if they were negligent in poor planning to prevent numerous ADEQ violations.

Continued on the Next Page.

**Arizona Corporation Commission
Public Comment Form
Continuation Page**

CONTINUE YOUR COMMENTS HERE:

- We the customers of Farwest do not feel that is a cost that should be transferred to current customers.
- We feel that Far West Water and Sewer Co. should have maintained the current facilities as repeated violations were submitted since 1990 from ADEQ as well as the September 9, 2008, 49 page complaint in Maricopa County Superior Court in which 50 counts were filed against these companies for wastewater violations. In 2006 the plant finally came into compliance with ADEQ receiving permission to allow more hookups. Maintaining is what the company should have focused on, but instead they recently increased their lagoon by 300 percent.

THEREFORE, we feel that this enormous increase is not justified. We the current owners feel that the extra charges requested are to aid H&S Developers and Far West Water & Sewer in paying Settlements incurred due to a law suit and penalties owed to ADEQ for lack of safety. We also feel it is possible that Farwest is trying to offset the costs incurred by the parent Companies new development on 48th Street. Their lack of sales and poor investments are not our responsibility. Farwest and H&S Developers, for years should have been investing their revenues in maintaining the system they have in place. If that had been the case they would not be requesting this aid currently.

Other Cities in Arizona* have been investigated and it has been found that they have seen rate increases of 5-9.5%. A small percentage is acceptable and necessary, but 200+% IS NOT. We the customers cannot afford this increase. We hope you will consider our concerns and VOTE NAY on this application. Thank You!

Dated this *25th* day of February, 2009

*Average Sewer Rates around Arizona:

Sierra Vista (Rate increase of 5% total initiated Jan. 1, 2009): \$14.68/month

Tucson: \$23.61/month Rate Increase of 9.5% initiated July 1, 2008

Phoenix: \$28.50/month Proposed Rate increase of 5%

Couple of years ago, Far West was cited for non-compliance to state Sewer regulations. As I understand it, they were told by your commission that they had to get into compliance before they could hook up any more new property to the sewer system. They are presently working on and selling property in a new development in spite of the commission directive. How can you let them get away with that? The money they have spent on the development should have been spent bring the sewer up to code. Now they are asking their customers to foot the bill for their arrogance. I donot think it is right that we should pay for their incompetance.

Please donot approve their rate hike.

- We don't feel that Current customers should incur the costs necessary to cover a new Wastewater Plant needed to compensate for future growth. At most this cost should be absorbed by impact fees on the new lots being developed.
- We believe they have not suggested this because it would reduce the parent Company's building profits, in part due to the recession limiting the builder's inability to charge more than the market will bear.
- We further feel that this increase is also being requested as a direct result of negligence on the part of the Water Company, Farwest Water & Sewer. It appears as if they were negligent in poor planning to prevent numerous ADEQ violations.

Arizona Corporation Commission
Public Comment Form
Continuation Page

CONTINUE YOUR COMMENTS HERE:

- We the customers of Farwest do not feel that is a cost that should be transferred to current customers.
- We feel that Far West Water and Sewer Co. should have maintained the current facilities as repeated violations were submitted since 1990 from ADEQ as well as the September 9, 2008, 49 page complaint in Maricopa County Superior Court in which 50 counts were filed against these companies for wastewater violations. In 2006 the plant finally came into compliance with ADEQ receiving permission to allow more hookups. Maintaining is what the company should have focused on, but instead they recently increased their lagoon by 300 percent.

THEREFORE, we feel that this enormous increase is not justified. We the current owners feel that the extra charges requested are to aid H&S Developers and Far West Water & Sewer in paying Settlements incurred due to a law suit and penalties owed to ADEQ for lack of safety. We also feel it is possible that Farwest is trying to offset the costs incurred by the parent Companies new development on 48th Street. Their lack of sales and poor investments are not our responsibility. Farwest and H&S Developers, for years should have been investing their revenues in maintaining the system they have in place. If that had been the case they would not be requesting this aid currently.

Other Cities in Arizona* have been investigated and it has been found that they have seen rate increases of 5-9.5%. A small percentage is acceptable and necessary, but 200+% IS NOT. We the customers cannot afford this increase. We hope you will consider our concerns and VOTE NAY on this application. Thank You!

Dated this *23rd day of Feb 09*

*Average Sewer Rates around Arizona:

Sierra Vista (Rate increase of 5% total initiated Jan. 1, 2009): \$14.68/month

Tucson: \$23.61/month Rate Increase of 9.5% initiated July 1, 2008

Phoenix: \$28.50/month Proposed Rate increase of 5%

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

This is to voice my absolute opposition to a proposed "interim emergency rate increase" for the sewer utility services operated by Far West Water and Sewer Co., Inc. (Far West) in Yuma County. According to the company's application to the Commission, Far West seeks "immediate implementation of interim rates" that would raise an additional \$2.2-million over its 2007 revenues. It should be considered that this application for "emergency" rate relief follows by days a Far West application for a permanent 214.8% sewer rate hike that would by, the company's estimate, amount to \$4, 595,748 in new revenue.

In seeking the interim emergency rate increase, the Far West application filed with the Commission stated emphatically, "the threat of insolvency certainly constitutes an emergency...(and) the financial condition of the company is such that its ability to

maintain service pending a formal rate determination is in serious doubt.”

I find this entirely typical of the arrogance by this company in trying to jump on the bailout wagon by jamming its customers, already staggering under today's economic pressures, giving them less than a month to object and risk having those objections lost in a groundswell of anger and disgust over the original rate increase proposal. But then, as the general superintendent for Far West explained in an interview, “The company has taken the stand we are going to shoot for the top...” (Yuma Sun, 7/21/06) when the utility applied for a 35.2% rate increase.

Far West, in my opinion, needs reorganization alright but in the form of a better business model that includes competent planning and budgeting which would prevent over-extending its financial reach through speculative development by one of its family member companies; paying proper attention to environmental regulations so as not to allow itself to be saddled with a lawsuit filed by the state of Arizona for millions of dollars for “multiple and long-standing and repeated violations of wastewater, drinking water and air quality standards,” and adherence to basic safety regulations which might have prevented the deaths of two employees resulting in another \$1.7-million judgment plus restitution.

I, for one, find it unconscionable to consider Far West now seeks to burden its customers with having to financially cover for its own apparent lack of sound business practices. For the many of us in the Far West service area who live on minimum fixed incomes and who are witnessing ever-escalating costs for basic food and health care needs, the indifference being exhibited by the Far West “interim emergency rate increase” that amounts to a 109.6% jump in sewer rates is appallingly beyond reason.

I urge the Commission to put the brakes on this bailout train. Let Far West Water and Sewer Co., Inc. go through the normal process already in place and –just days ago– requested by this company for changing its rates. Alarmist rhetoric about “the financial condition of the company is such that its ability to maintain service pending a formal rate determination is in serious doubt,” in my opinion is designed to circumvent rules put in place in order to protect the residents of Arizona. In short, please don't allow Far West's sudden cry of desperation emotion run away with your intelligence.

Re:

Docket for Comment: Proposed Emergency Application for Interim Rates and Charges
(Expedited Action Requested) for Far West Water & Sewer
Case or Utility Name: Far West Water and Sewer Company, Yuma, Arizona
Docket #WS-03478A-08-0608
Position on the Docket: Con

Far West Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month now charged whether the consumer is using his/her property and therefore sewer services for twelve months, for six months or even only for one month per year.

It is not unreasonable to expect a company to make a profit, but it is unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Far West Water and Sewer and not the current consumers.

The current consumers purchased their properties, a good percentage of them originating from the development company also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely,

G. R. Schmid

We wish to advise you that we are against an emergency hike in sewer fees for Far West Water and Sewer Company. They should have thought of what was going to be involved before they kept opening up new subdivisions. Money from the sale of these lots should have been set aside for the future developments that they wished to do. Also they should be charging new lot owners in the cost of the lot for improvements and new construction for its waste water treatment system. This should not be a burden to permanent residents and winter visitors in the Foothills of Yuma who have owned their lots for many years. The sewer costs will be almost as much as our taxes on our lot. This is an absolute greed on the part of the owners of Far West Water and Sewer. I know of no other place that charges such exorbitant fees for sewer services. As seniors we are on a fixed income as well as many other seniors. This could cause many people to have to sell their lots/homes.

According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

Re:

Docket for Comment: Proposed Emergency Application for Interim Rates and Charges
(Expedited Action Requested) for Far West Water & Sewer
Case or Utility Name: Far West Water and Sewer Company, Yuma, Arizona
Docket #WS-03478A-08-0608
Position on the Docket: Con

Far West Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month now charged whether the consumer is using his/her property and therefore sewer services for twelve months, for six months or even only for one month per year.

It is not unreasonable to expect a company to make a profit, but it is unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Far West Water and Sewer and not the current consumers.

The current consumers purchased their properties, a good percentage of them originating from the development company also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely, *Johnie W. Schiemer*

The emergency rate increase of \$45. from \$21. seems excessive and a little suspicious to get that raise through in a short time. Why the hurry, are there finances in such bad straits? Maybe they need to sell some of their many real estate properties to cover their expenses, and new house development.

Far West Water and Sewer Company is trying to expedite a rate change by requesting an interim rate increase. This increase comes to over 100% of the existing rate of \$21.75 per month now charged whether the consumer is using his/her property and therefore sewer services for twelve months, for six months or even only for one month per year.

It is not unreasonable to expect a company to make a profit, but it is unreasonable to allow a company to gouge its customers in order to do so. In assessing whether or not to allow this interim sewer rate increase, particularly one so outrageous, it should be remembered that the potential "insolvency" problem described in their request is the result of the business practices of Far West Water and Sewer and not the current consumers.

The current consumers purchased their properties, a good percentage of them originating from the development company also under the same ownership as the water and sewer company, expecting that the company had installed a fully functional sewer system. This was not the case, as determinations made by the ADEQ have proven. It should not be the responsibility of the consumer, who in good faith purchased property expecting a fully operational system, to finance the errors made by the company.

Sincerely,

Patricia Curry

Far West Water and Sewer Co. (FWWS) customers are protesting the application submitted by them, docket number WS-03478A-08-0608. According to a joint News Release from ADEQ and Arizona Attorney General's office, FWWS has had long standing violations. The neglect of their responsibility to maintain their sewer system resulted in their present crisis. The alleged "emergency" was a result of inadequate planning by FWWS to maintain compliance, not a "sudden change" as quoted by the company using Op Att'y Gen. 71-17 at 13. This does not constitute an emergency because it was not brought on suddenly, but rather was a result of the company's chronic lack of compliance. Now that ADEQ has required them to build adequate facilities, they want the customers to pay for their mismanagement. Please vote NO as this is not an emergency. Any financial hardship appears to be associated with poor management and therefore, is not the responsibility of their customers.

I am against this increase in the rates for many reasons. The economy, fixed retirement income in competence on far west water, too many to list. If these people have a faulty system needing repair it didn't happen over nite, they are in the wrong for neglecting the problem. Audit their books and see what is in there. No No No
