ENTER YOUR COMMENTS HERE:

We are a couple living on a fixed income. Our water Rates our up to \$100⁰⁰ a month now if it was to go much higher we would not be able to keep a nice landscape.

Please Disalow this Increase

40% what in the stars is wrong with the directors of this water co. there is a lot of field income, home owners living here, and they are being hit by steadily paying increases daily with no increase in compensation. In order to keep it green and clean we need water, I know but I would rather have no grass, no trees or shrubs. Let's stop using

Subject: Docket Nos. W-03067A-08-0266 and W-03067A-08-0380
Proposed rate increases by Beaver Dam Water Company

The proposed water rate increases by Beaver Dam Water Company are ridiculous, inflationary, irresponsible, cruel, and incredulous. Such an increase would more than double the present rate. The base rate would increase double and the usage rate would more than double. This would mean a rate increase of more than 100%. Many of our residents are elderly retired people on fixed incomes. Many others are ordinary workers (the backbone of any society), many unemployed because of the national economic crisis, all of these people struggling to feed themselves, care for their families, get medical care, and survive in these troubled times.

Beaver Dam Water Company has already expanded in the past few years. The service has been improved. The economic crisis has slowed our growth. What dire circumstances necessitate imminent expansion? Nothing that we know of. This request for more money savors of greed, poor management, irresponsibility, and lack of concern for other people. These are the same errors by which wall street, investors, businesses, governments, and also consumers, have incubated the present economic crisis of America and the world.

Conclusions:

1. In May and July, 2008 Beaver Dam Water Co. filed applications for rate increases and a loan. Since then the economy has collapsed and growth has ceased. Does Beaver Dam Water Co. have a valid reason to expand in this deep recession economy?
2. The present base rate is already high and should NOT be increased.
3. If sufficient evidence does support a rate hike, the use rate might be increased slightly, but NOT more than 10%.

A natural monopoly such as a public utility demands proper regulation by the government of that society to protect the citizens from unscrupulous management and unlawful practices. You, the State of Arizona, have this jurisdiction. Knowing the track record of Beaver Dam Water Co., our hope and trust is in you, the State of Arizona. Please exercise wisdom and concern to protect and help your citizens.

Sincerely,

Arzy W. Crystal

The Proposed water Rate increase by
Beaver Dam Water Company, I feel is very excessive.

It would be very nice if we could all
get a pay increase of 100%, but most individuals
and companies are having an income decrease
at the very time Beaver Dam Water is asking
for this large rate hike.

I am sure that an increase of this magnitude
at this time would cause additional hardship
on many residents in the service area.

We must all be more equal in these times
and Beaver Dam Water Company should not be
exempt.

My suggestion would be to leave the
base rate at \$15 and allow Beaver Dam Water
to raise the usage rate to his proposed level.

Thank you in advance

Edward R. Jensen
