Docket NO. T-01846B-07-0663

I would like to add to my past letters to you about the upcoming hearing for the UCSA for Hillcrest Bay Mobile Manor. There have been at least 2 foreclosures here and with the whole country in such an economic shut down there is likely to be more. And if the UCSA is approved it will probably cause more. This is a very bad time for a project like this to start. It is by no means necessary it is only to make this area have a little better view, any value it might add is lost in the economic times. And it could very well cause people to loose their homes. Most of the full time residents here are retired and on a fixed income. And even that income is in doubt with the economic condition of the country. Even President Obama and Senator McCain say the economy is likely to get worse before it gets better. They also say it will take a long time for it to get better. And if even one person loses their home because of the UCSA, then it should not be done. Please turn this project down!! Thank you.
