Re: Motion to intervene in the Application of Beaver Dam Water Company, Inc. for increase in its Rates and Changes of utility service.

DOCKET No: W-03067A-08-0266 and W-03067A-08-0380

We wish to intervene in the application for increases in the Water Rates and Charges filed by Beaver Dam Water Company. I am a residential customer of the Utility and therefore have an interest in the ramifications of an additional increase in the water rates.

The community is made up of elderly and retired people on fixed incomes. There are many of these families struggling with unemployment because of the national economic crisis. There are many taxes being raised to make it harder for people to meet their obligations. What happens if people are unable to pay for this service. With the kind of raise in price that Beaver Dam Water is asking for, (100%) it is not reasonable, it is irresponsible and a lack of concern for other people.

Beaver Dam Water has expanded in the past few years. The economic crisis has slowed our growth. Why is it necessary for expansion at this time. We need proper regulation by the government that protects the citizens of Arizona. The State of Arizona have this obligation and duty for the citizens of Little Field and Beaver Dam AZ.

Sincerely,

Lewis & Ramona
