Re: **Abel-Moody 230 KV Transmission Project**

*L-00000B - 07-0130-00132*

To the Line Siting Committee of the ACC Utilities Division:

I want you to know how concerned members of our community are about the installation of the Abel-Moody power lines. I live in the Langley Gateway Estates neighborhood on Queen Creek Road and Crismon. My husband and I spent much time choosing a home and location perfect for raising our family. We love it here, and love the Queen Creek community. **We would not have chosen this area had there been high-tension power lines above ground on Ryan Road.** Those power lines would be plainly visible from Queen Creek Rd.

Also, we (and everyone else on our street) paid a premium for the view north of Queen Creek Road. Installing the power lines on Ryan Road (1/2 mile away) would not only be an eyesore but would devalue our properties and our homes.

Likewise, installing the power lines on Rittenhouse Road would devalue our town center. I understand the need for the Abel-Moody project. Please consider one of the alternative routes for the power lines (Germann Rd, or South of Rittenhouse).

We have already contacted SRP concerning this matter and I was very concerned with the response. Stephanie Winn (SRP Public Information) wrote, "At this time, Ryan Road and Rittenhouse Road have a higher preference than Germann Road." I think it is absolutely absurd that SRP is considering Ryan Rd and Rittenhouse Rd above Germann Rd. Germann Rd is already zoned as light industrial and it is located at the north-most parts of our town. Seems to me that if the residents of Queen Creek were taken into consideration the route along Germann Rd would be the obvious choice.

Thank you for your attention and support on this very important matter affecting the Queen Creek community.

Sincerely,

*Angela Monson*
