Myself and my family strongly disagree with the concept of installing cell phone or any other type of towers in residential neighborhoods. The areas that NewPath are considering for these towers are literally in the front

UTILITY COMPLAINT FORM

yards (in the utility easements) but none the less, front yards of residential homes. In most cases these homes are located in environmentally sensitive areas that have had very strict design and development restrictions incorporated into their creation.

Please do not allow NewPath to desecrate our properties with their value decreasing equipment.

Thank you,

Bob Roble

Subject: NewPath Newwork Request for CCN - Docket T-20567A-07-0662

To: Arizona Corporation Commissioners;

On behalf of the hundreds of members of the Coalition, we want to register our opposition to the NewPath project that would create 287 cell towers throughout Scottsdale. NewPath has no experience for such a huge project nor has there been a public demand for the increase in cell towers they propose. It is a speculative venture at best because it relies on outside cell phone providers to lease NewPath towers with no commitments at this time. Lastly, it is intrusive to our well planned community with no demand for such services by our residents.

Please deny NewPath's request for a license.

Thank you.

Bob Vairo, President
(for) The Board of Directors
Coalition of Pinnacle Peak, Inc.

Subject:

To Whom It May Concern:

anywhere else. They are a health hazard! The towers will be only serving a few people that have a G3 phone. Why should one company like AT&T be allowed to put up so many towers in an area? The next thing another company will want the same thing done and we will double the number of these kinds of towers. . It will only be a matter of time before they will be obsolete and something newer and better will be out. Then we will have these unsightly unhealthy towers to deal with. Newpath is taking short cuts to cut cost which will also cause I want you to know I do NOT want the NewPath towers put in my neighborhood nor issues in the long run. The towers only cover a very small area so there will be a need for millions before they are done. Do you want one of these towers on your property to look at and cause a health hazard to your family? A ¼ of a mile is a very small area.

To sum it up I DO NOT want any Newpath towers put up!!!!!!
