Re: Far West Water and Sewer Proposed Rate Increase

Dear Mr. Newman and Commissioners,

I wrote you a letter about Far West on March 9th, 2009. There is something else that has come to mind about this rate issue.

It is apparent that Far West has sometime in the past has been turned down for a rate increase. So to get around your rulings, they have added or substantially increased turn on fees or other fees to get around your decisions. Also, for us winter visitors who only live on our properties several months each year, we are now able to completely shut off our service and pay no fees while it is shut off. Far West could try to start charging us a fee for NOT USING their service during the summer months when we are not here. They are very devious and with their attorney's assistance, they will try to figure out a way around your decision. We hope you will take this in consideration when deciding what you are going to do about Far West's proposed ridiculous rate increase.

Sincerely,

Phil and Greta Schneider
