February, 2009

From: *Crispin Sanchez*
PO Box *955*
Beaver Dam, AZ 86432

Subject: Docket Nos. W-03067A-08-0266 and W-03067A-08-0380
Proposed rate increases by Beaver Dam Water Company

The proposed water rate increases by Beaver Dam Water Company are ridiculous, inflationary, irresponsible, cruel, and incredulous. Such an increase would more than double the present rate. The base rate would increase double and the usage rate would more than double. This would mean a rate increase of more than 100%. Many of our residents are elderly retired people on fixed incomes. Many others are ordinary workers (the backbone of any society), many unemployed because of the national economic crisis, all of these people struggling to feed themselves, care for their families, get medical care, and survive in these troubled times.

Beaver Dam Water Company has already expanded in the past few years. The service has been improved. The economic crisis has slowed our growth. What dire circumstances necessitate imminent expansion? Nothing that we know of. This request for more money savors of greed, poor management, irresponsibility, and lack of concern for other people. These are the same errors by which wall street, investors, businesses, governments, and also consumers, have incubated the present economic crisis of America and the world.

Conclusions:

1. In May and July, 2008 Beaver Dam Water Co. filed applications for rate increases and a loan. Since then the economy has collapsed and growth has ceased. Does Beaver Dam Water Co. have a valid reason to expand in this deep recession economy?
2. The present base rate is already high and should NOT be increased.
3. If sufficient evidence does support a rate hike, the use rate might be increased slightly, but NOT more than 10%.

A natural monopoly such as a public utility demands proper regulation by the government of that society to protect the citizens from unscrupulous management and unlawful practices. You, the State of Arizona, have this jurisdiction. Knowing the track record of Beaver Dam Water Co., our hope and trust is in you, the State of Arizona. Please exercise wisdom and concern to protect and help your citizens.

Sincerely,

Crispin Sanchez

Proposed rate increases by Beaver Dam Water Company

The proposed water rate increases by Beaver Dam Water Company are ridiculous, inflationary, irresponsible, cruel, and incredulous. Such an increase would more than double the present rate. The base rate would increase double and the usage rate would more than double. This would mean a rate increase of more than 100%. Many of our residents are elderly retired people on fixed incomes. Many others are ordinary workers (the backbone of any society), many unemployed because of the national economic crisis, all of these people struggling to feed themselves, care for their families, get medical care, and survive in these troubled times.

Beaver Dam Water Company has already expanded in the past few years. The service has been improved. The economic crisis has slowed our growth. What dire circumstances necessitate imminent expansion? Nothing that we know of. This request for more money savors of greed, poor management, irresponsibility, and lack of concern for other people. These are the same errors by which wall street, investors, businesses, governments, and also consumers, have incubated the present economic crisis of America and the world.

Conclusions:

1. In May and July, 2008 Beaver Dam Water Co. filed applications for rate increases and a loan. Since then the economy has collapsed and growth has ceased. Does Beaver Dam Water Co. have a valid reason to expand in this deep recession economy?
2. The present base rate is already high and should NOT be increased.
3. If sufficient evidence does support a rate hike, the use rate might be increased slightly, but NOT more than 10%.

A natural monopoly such as a public utility demands proper regulation by the government of that society to protect the citizens from unscrupulous management and unlawful practices. You, the State of Arizona, have this jurisdiction. Knowing the track record of Beaver Dam Water Co., our hope and trust is in you, the State of Arizona. Please exercise wisdom and concern to protect and help your citizens.

Sincerely,

Patsy K Manning PO Box 913
