Subject: UNS Gas Inc request

Dear Ms Kennedy,

I am against the increase request by UNS Gas Inc.

The major reason I object is the very existence of this "fee" that they want to increase, I have always felt this "fee" should have been reduced or eliminated. What is it, a sort of fee I have to pay them to sell me something? They should be set up to make their return on investment based on the selling of gas, not a "fee" for the privilege of selling me gas. Reduce it to zero, do not increase it.

A few years ago I had a retail store where I did not use gas at all except in winter. Well as would imagine I had to pay their "fee" all summer, just to be connected I assume. I thought that was wrong.

Things are "tough" all over for our citizens, this is not the time for an increase in a basic item like gas for cooking and heat, it is not something we can avoid by not using it. I can leave my car in the garage or not go to a restaurant but I need to have gas in my house. Do not allow this increase.
