Re: Docket Numbers E-00000J-08-0314, G-00000C-08-0314,

Dear Commissioners:

I am writing to express my support for your consideration of increased energy efficiency. The mission of The Wilderness Society is to protect wilderness and inspire Americans to care for our wild places. In fulfilling this mission, we also recognize the need to protect our planet from pollution and climate change, and to support functioning ecosystems, especially in sensitive environments such as the desert. To that end, we encourage energy efficiency as an important part of decreasing energy consumption and reducing pressures on the environment.

Thank you for your efforts and deliberations in this matter.

Very truly yours,

Rebecca Knuffke, Central Arizona Campaigns Coordinator
