DOCKETED BY *NM*

August 16, 2000

Dear Interested Party:

Over the past few months, a number of questions have been raised about the proposed Environmental Portfolio Standard. How will it be implemented? How does an ESP or utility meet certain requirements? What standards will be adopted for the equipment in the portfolio?

In order to help answer these questions and others that might arise, the Commission Staff has decided to host a Workshop on the Proposed Environmental Portfolio Standard.

**Workshop on the Proposed Environmental Portfolio Standard**

**August 29, 2000**

**9 AM-Noon**

**Auditorium, 1<sup>st</sup> Floor**

**Arizona Industrial Commission offices\***

**800 W. Washington (four blocks east of the ACC offices)**

**Phoenix, AZ**

**PROPOSED AGENDA**

1. Summary of the proposed Environmental Portfolio Standard (Docket No. RE-00000C-00-0377)
  - Brief description of the Portfolio Standard
  - Answers to commonly asked questions
2. Opportunities created by the Portfolio Standard
3. Standards for Portfolio equipment
4. Other issues related to the Portfolio

**\* Note: Parking is on the roof of the Industrial Commission's parking garage. No food or beverage is allowed in the auditorium.**

Sincerely,

*Ray T. Williamson*
