INSERT

"Nevertheless, the Commission cannot agree to the Cooperative's proposal to eliminate its construction credit for line extensions at this time, which according to Mr. Hedrick's testimony, would require new customers to pay an additional amount of up to \$1,750. Although the Commission has recently eliminated the free footage for line extensions for other utilities, it has been forced to reevaluate the wisdom of those decisions in light of the significant down turn in economic activity and new construction throughout the State. At this time, the Commission believes the safer course is to preserve the status quo with respect to the Cooperative's line extension policies."
