Subject: Global Water Rate Increase

Dear Commissioner,

I am a registered voter and resident of Maricopa, AZ. Our local water company, Global Water, has a history of poor customer service including lies, deceit, and poor service. Now I understand that Global Water has applied to the commission for a substantial rate increase. If that increase is approved, my water and sewer bill will increase from \$50/month to \$200/month. That increase will bankrupt the HOA's that most Maricopa residents are part of.

The state of Florida has just declined in population for the first time in history due to outrageous increases in utilities that have caused people to leave the state in droves. That same thing will happen in Maricopa if this rate increase goes through.

I am requesting that the commission hold a hearing to listen to the hundreds of residents in Maricopa who have signed a petition against Global Water. As voters, we are angry that this increase is being jammed down our throats with nothing but a token response from the commission. As voters, we are tired of taxation without representation. We would like to be heard. We have a location for a meeting. All we are asking for is someone, anyone, on the commission who would care enough to listen to what we have to say. Does anyone on the commission care enough to listen to the residents of Maricopa?
