ATTN: Ladies and Gentlemen

As I am unable to attend this Session in person I wish to reiterate my stand opposing the UCSA Project in Hillcrest Bay, Parker, Arizona. Even before the effects of the declining economy, my income has declined by half due to the untimely death of my husband, Earl Davis, who also opposed the UCSA project. Now, even more so, I oppose this underground conversion not only because of the declining economy, but, also because of the unbalanced cost assignment divided to each parcel. This additional, and substantial cost will greatly tax my already decreased income to the point that I may no longer be able to keep my home, much less maintain it. In short, it will be a great burden to myself, and many of my neighbors who also struggle day to day with rising costs of living and medical expenses to pursue this extensive project.

I wish the Arizona Corporation Commission to carefully consider the financial burden this project would bring on an already established community of fixed income full time residents who have long appreciated and accepted the community as it is on a day to day basis. While I can appreciate the cosmetic appeal of the project, the established time and cost to implement this project is a greater burden to us, than unmeasurable and indeterminable increase of property value.

Sincerely,

Erna Davis
